ABSTRACT

After legalization of the Law of The Republic Indonesia No. 12 Year 2012 on Higher Education, The Legal Entity-State University (PTN-BH) has an authority to conduct its own institutional management, independently. The management authority is not only about academic autonomy -as its basic occasion, but also coverage non-academic authority too, where that autonomy of financial management is included.

The PTN-BH's autonomy of financial management is distributed by delegation authority scheme, based on PTN-BH statute that mentioned on Government Regulation (PP). One of critical point from the regulation is the separation of PTN-BH's wealth of the country's wealth, which is cause a genuine legal consequences on various aspect during PTN-BH institutional management.

Keywords: Academic autonomy, non-academic autonomy, the autonomy of financial management, PTN-BH, higher education law, legal consequences
