HALAMAN LEMBAR PERNYATAAN ...................................................... i
HALAMAN PENGESAHAN................................................................. ii
PEDOMAN PENGGUNAAN SKRIPSI ........................................... iii
ABSTRAK ............................................................................................... iv
ABSTRACT .............................................................................................. v
KATA PENGANTAR ................................................................................ vi
DAFTAR ISI ............................................................................................ viii
DAFTAR GAMBAR .................................................................................... x
DAFTAR TABEL ........................................................................................ xii
DAFTAR LAMPIRAN ................................................................................ xiii

BAB I  PENDAHULUAN ......................................................................... 1
1.1 Latar Belakang ............................................................................... 1
1.2 Rumusan Masalah ........................................................................... 3
1.3 Hipotesis ......................................................................................... 3
1.4 Batasan Masalah ............................................................................ 3
1.5 Tujuan dan Manfaat ....................................................................... 4
1.5.1 Tujuan .................................................................................... 4
1.5.2 Manfaat .................................................................................. 4

BAB II TINJAUAN PUSTAKA .................................................................... 5
2.1 Definisi Kanker Serviks ............................................................... 5
2.1.1 Tanda-Tanda Kanker Serviks .................................................. 5
2.1.2 Stadium Kanker Serviks ......................................................... 7
2.1.3 Pemeriksaan pada Kanker Serviks ......................................... 9
2.2 CT-Scan ........................................................................................... 10
2.2.1 Prinsip Kerja CT-Scan ........................................................... 10
2.3 Pengolahan Citra ........................................................................... 11
2.3.1 Histogram ............................................................................... 14
2.3.2 Segmentasi ............................................................................. 15
2.3.3 Feature Extraction ................................................................. 16
2.4 Jaringan Syaraf Tiruan ................................................................. 16
2.4.1 Arsitektur Jaringan Syaraf ...................................................... 18
2.4.2 Metode Pelatihan Jaringan Syaraf.......................................... 20
2.5 Perceptron ..................................................................................... 21

BAB III METODE PENELITIAN ......................................................... 23
3.1 Bahan Penelitian ........................................................................... 23
3.2 Langkah-langkah Pengerjaan ....................................................... 23
3.3 Studi Pustaka ................................................................................ 24
3.4 Pengambilan Data ......................................................................... 24
3.5 Image processing hasil rekaman CT-Scan .................................... 25
3.6 Pelatihan jaringan syaraf tiruan dengan metode perceptron........ 27
3.7 Proses pengujian menggunakan jaringan syaraf tiruan perceptron 30

BAB IV HASIL DAN PEMBAHASAN .......................................................... 31
4.1 Proses pengolahan citra................................................................. 31
4.1.1 Proses histogram ................................................................. 31
4.1.2 Proses segmentasi dan feature extraction ......................... 34
4.2 Hasil Penelitian ........................................................................ 37
4.2.1 Hasil image processing (preprocessing) ......................... 37
4.2.2 Hasil training data menggunakan jaringan syaraf tiruan .... 52
4.2.3 Hasil testing data menggunakan jaringan syaraf tiruan .... 64
4.3 Pembahasan ............................................................................... 70

BAB V KESIMPULAN DAN SARAN ...................................................... 73
5.1 Kesimpulan .............................................................................. 73
5.2 Saran ....................................................................................... 73

DAFTAR PUSTAKA ............................................................................. 74
