LEMBAR PERSETUJUAN ................................................................................................ ii
LEMBAR PENGESAHAN ................................................................................................. iii
PEDOMAN PENGUNAAN SKRIPSI ............................................................................ iv
KATA PENGANTAR ....................................................................................................... v
ABSTRAK .................................................................................................................... vi
ABSTRACT .................................................................................................................... vii
DAFTAR ISI ................................................................................................................ viii
DAFTAR TABEL .......................................................................................................... xi
DAFTAR GAMBAR ...................................................................................................... xii
DAFTAR LAMPIRAN .................................................................................................. xiii

BAB I PENDAHULUAN ............................................................................................. 1
  1.1 Latar Belakang .................................................................................................... 1
  1.2 Perumusan Masalah .......................................................................................... 4
  1.3 Tujuan ............................................................................................................... 5
  1.4 Manfaat ............................................................................................................ 5
  1.5 Batasan Masalah .............................................................................................. 5

BAB II TINJAUAN PUSTAKA ................................................................................... 6
  2.1 Nilai Tukar Mata Uang rupiah Terhadap Dolar Amerika ............................ 6
  2.2 Sistem Nilai Tukar Mata Uang ...................................................................... 7
2.3 Analisis Runtun Waktu ................................................................. 9
2.4 Stasioneritas dalam *Time Series* ................................................. 9
2.5 Uji *Augmented Dickey Fuller* ..................................................... 11
2.6 *Autocorrelation Function* (ACF) ............................................... 12
2.7 *Partial Autocorrelation Function* (PACF) ............................... 13
2.8 Model *Time Series* .................................................................. 15
2.9 Estimasi Parameter Model ARIMA .............................................. 19
2.10 Signifikansi Parameter ............................................................... 20
2.11 Penguji Asumsi Residual (*Diagnostic Check*) ...................... 21
2.12 Kriteria Pemilihan Model Terbaik .......................................... 22
2.13 SAS V.9 ................................................................................. 23

BAB III METODE PENELITIAN ......................................................... 25
3.1 Sumber Data ............................................................................. 25
3.2 Variabel Penelitian ................................................................. 25
3.3 Langkah-langkah Penyelesaian ................................................ 25

BAB IV HASIL DAN PEMBAHASAN ............................................... 27
4.1 Identifikasi Kestasioneran Data .................................................. 27
4.2 Identifikasi Model Dugaan .......................................................... 32
4.3 Estimasi Parameter dan Uji Signifikansi Parameter .................. 33
4.4 Uji Asumsi Residual ................................................................. 38
4.5 Pemilihan Model Terbaik .......................................................... 41
4.6 Peramalan ................................................................................ 42

BAB V PENUTUP ............................................................................. 46
5.1 Simpulan ........................................................................................................ 46
5.2 Saran.............................................................................................................. 46

DAFTAR PUSTAKA .............................................................................................. 48
