**BAB I PENDAHULUAN**
- 1.1 Latar Belakang .......................................................... 1
- 1.2 Rumusan Masalah .......................................................... 5
- 1.3 Asumsi Penelitian .......................................................... 5
- 1.4 Hipotesis Penelitian .......................................................... 6
  - 1.4.1 Hipotesis kerja .......................................................... 6
  - 1.4.2 Hipotesis statistik ....................................................... 6
- 1.5 Tujuan Penelitian ............................................................ 7
- 1.6 Manfaat Penelitian .......................................................... 7

**BAB II TINJAUAN PUSTAKA**
- 2.1 Tuberkulosis ................................................................. 8
  - 2.1.1 Definisi tuberkulosis ................................................... 8
  - 2.1.2 Penyebab dan patogenesis tuberkulosis ................................ 8
- 2.2 Bakteri *Mycobacterium tuberculosis* ........................................... 9
- 2.3 Respon Imun ........................................................................ 11
  - 2.3.1 Sistem imun ................................................................. 11
  - 2.3.2 Sitokin .......................................................................... 13
  - 2.3.3 Interleukin-4 ............................................................... 14
  - 2.3.4 Mekanisme imunitas terhadap bakteri ................................ 15
- 2.4 Limpa .................................................................................. 17
  - 2.4.1 Struktur umum dan histologis limpa ................................ 17
  - 2.4.2 Germinal center ............................................................ 19
- 2.5 *Coriolus versicolor* .............................................................. 20
  - 2.5.1 Morfologi dan klasifikasi *Coriolus versicolor* .................. 20
  - 2.5.2 Kandungan polisakarida krestin pada *Coriolus versicolor* .... 22
  - 2.5.3 Senyawa aktif β-glucan .................................................. 23

**BAB III METODE PENELITIAN**
- 3.1 Tempat dan Waktu Penelitian ............................................. 25
- 3.2 Bahan dan Alat Penelitian .................................................... 25
3.2.1 Hewan coba .................................................. 25
3.2.2 Bahan penelitian ......................................... 26
3.2.3 Alat penelitian ............................................. 26
3.3 Rancangan Penelitian ..................................... 28
3.4 Prosedur Penelitian ........................................ 28
  3.4.1 Sterilisasi alat ............................................. 28
  3.4.2 Isolasi dan perbanyakan bakteri Mycobacterium tuberculosis .... 29
  3.4.3 Koleksi dan pembuatan serbuk jamur Coriolus versicolor .... 29
  3.4.4 Pembuatan ekstrak jamur Coriolus versicolor .......... 30
  3.4.5 Penentuan konsentrasi Polisakarida Krestin .......... 31
  3.4.6 Pemberian polisakarida krestin dan infeksi M. tuberculosis pada hewan coba ........................................ 31
  3.4.7 Pengambilan darah dan isolasi serum ............. 32
  3.4.8 Pengukuran konsentrasi IL-4 ....................... 33
  3.4.9 Pengambilan limpa mencit ........................... 35
  3.4.10 Tahap pembuatan sediaan histologi limpa .... 35
  3.4.11 Pengamatan diameter pusat germinal limpa .... 37
3.5 Variabel Penelitian ........................................ 38
3.6 Analisis Data .................................................. 38

BAB IV HASIL DAN PEMBAHASAN ......................... 40
  4.1 Hasil Penelitian ............................................. 40
    4.1.1 Pengaruh waktu pemberian polisakarida krestin dari C. versicolor terhadap konsentrasi IL-4 ............................ 40
    4.1.2 Pengaruh waktu pemberian polisakarida krestin dari C. versicolor terhadap diameter germinal center limpa ........................ 43
  4.2 Pembahasan .................................................. 46
    4.2.1 Pengaruh waktu pemberian polisakarida krestin dari C. versicolor terhadap konsentrasi IL-4 ............................ 46
    4.2.2 Pengaruh waktu pemberian polisakarida krestin dari C. versicolor terhadap diameter germinal center limpa ........................ 52

BAB V KESIMPULAN DAN SARAN ....................... 58
  5.1 Kesimpulan .................................................. 58
  5.2 Saran .......................................................... 58

DAFTAR PUSTAKA .................................................. 59
