ABSTRACT

As the times today in Indonesia, demand for land is increasing. The value of land is increasingly diverse and high value. Land can be used as long-term investment assets because of the high value. Also did not escape the land used as a tool in business, for example, can be used as loan collateral or equity. The increasing demand for land is not necessarily the people's understanding of land registration has increased. In not a few Eastern Kotawaringin many people who understand the importance of land registration. Finding people who think that they have the right base enough to explain that which has a land is his, so-called basic rights with the Land Statement (SPT) for the region of Central Kalimantan.

Statement on Land (Surat Pernyataan Tanah (SPT)) with a different position Petok, Girik, letter C, because it is considered in granting long or conversion activities. While the Statement of Land (Surat Pernyataan Tanah (SPT)) is a group that the new entitlement comes from the determination of the Government.

Statement on Land (Surat Pernyataan Tanah (SPT)) in the function used and recognized as the basis for the Land Registry, because the Statement of Land (SPT) included in the base class of rights that are attached as proof of acquisition of other land rights mentioned in the Regulation of Minister of Agrarian Affairs / Head of National Land Agency Republic of Indonesia Number 9 Year 1999.

Keywords: Statement on Land (SPT), the Land Registry.
