HALAMAN PERSETUJUAN SKRIPSI ................................ ii
HALAMAN PERNYATAAN ORISINALITAS SKRIPSI .............. iii
KATA PENGANTAR ........................................................ v
ABSTRAK ................................................................. vi
DAFTAR ISI .............................................................. viii
DAFTAR TABEL ......................................................... x
DAFTAR GAMBAR ..................................................... xi
DAFTAR LAMPIRAN .................................................. xii

BAB 1 PENDAHULUAN
   1.1 Latar Belakang ...................................................... 1
   1.2 Perumusan Masalah .............................................. 8
   1.3 Tujuan Penelitian ................................................ 8
   1.4 Manfaat Penelitian ............................................... 8
   1.5 Sistematikan Penulisan ......................................... 9

BAB 2 TINJAUAN PUSTAKA
   2.1 Landasan Teori ................................................... 11
      2.1.1 Konsep Sistem Informasi Operasional ................. 11
      2.1.2 Sistem Monitoring .......................................... 13
      2.1.3 Proses Pengembangan Sistem Informasi .............. 14
      2.1.4. Sistem Informasi keuangan .............................. 16
   2.2. Pengertian Bank ............................................... 20
BAB 3 METODE PENELITIAN

3.1 Jenis Penelitian .............................................................................................................. 31
3.2 Ruang Lingkup penelitian.............................................................................................. 32
3.3 Rancangan Penelitian .................................................................................................. 32
3.3.1 Pertanyaan penelitian .............................................................................................. 32
3.3.2 Proposisi ................................................................................................................... 33
3.3.3 Unit Analisis ............................................................................................................. 33
3.4 Jenis Data ....................................................................................................................... 33
3.5 Prosedur Pengumpulan Data ....................................................................................... 34
3.6 Teknik analisis data ...................................................................................................... 36

BAB 4 HASIL DAN PEMBAHASAN

4.1 Gambaran Umum Objek penelitian ........................................................................... 39
4.1.1 Sejarah Singkat PT Bank BRI Syariah .......................................................... 39
4.1.2 Visi dan Misi PT Bank BRI Syariah .............................................................. 40
4.1.3 Struktur Organisasi perusahaan ................................................................. 41
4.1.4 Produk Perusahaan PT Bank BRI Syariah .................................................... 41
4.2 Analisis Hasil Penelitian .................................................................................. 45
4.2.1 Prosedur pengajuan kredit ............................................................................ 46
4.2.2 Alur Jual-Beli property ................................................................................ 46
4.2.3 Proses monitoring angsuran ........................................................................ 48
4.2.4 Prosedur Kredit Macet .................................................................................. 50
4.2.5 Langkah Bank BRI Syariah KCP Batu dalam menangani kredit Macet ....... 51
4.3 Evaluasi atas kredit bermasalah ....................................................................... 53
4.4 Dampak kredit macet terhadap keuangan Bank dan Solusinya ....................... 54
4.5. Usulan Alur Berpikir dan Alur Informasi Sistem Penjualan ......................... 61
4.6 Input Subsystem ............................................................................................... 82
4.6.1 Transaction Processing system ..................................................................... 82
4.6.2 Operational Intelligence system ................................................................... 84
4.6.3 Sistem Pengendalian Kredit ......................................................................... 85
4.7 Output System .................................................................................................... 87

BAB 5 KESIMPULAN DAN SARAN

5.1 Kesimpulan ....................................................................................................... 90
5.2 Saran .................................................................................................................. 91
