ABSTRACT ....................................................................................................................... v
DAFTAR ISI .................................................................................................................. viii
BAB I ............................................................................................................................. 1
PENDAHULUAN ........................................................................................................... 1
  1.1 Latar Belakang ....................................................................................................... 1
  1.2 Rumusan Masalah ................................................................................................. 3
  1.3 Tujuan Penelitian .................................................................................................. 4
  1.4 Manfaat .................................................................................................................. 4
  1.5 Sistematika Penulisan Skripsi ............................................................................. 5
BAB II ............................................................................................................................ 7
  2.1 Landasan Teori ...................................................................................................... 7
    2.1.1 Pengertian Kualitas .......................................................................................... 7
    2.1.2 Manfaat Kualitas ............................................................................................ 8
    2.1.3 Pengendalian Kualitas .................................................................................... 9
    2.1.4 Six Sigma ....................................................................................................... 11
    2.1.5 Metode DMAIC ............................................................................................ 15
    2.1.6 Supplier-Input-Process-Outputs-Customer (SIPOC) .................................. 17
    2.1.7 Critical to Quality ......................................................................................... 18
    2.1.8 Fish Bone Diagram ....................................................................................... 19
    2.2 Penelitian Terdahulu .......................................................................................... 21
    2.3 Research Question ............................................................................................. 24
    2.4 Kerangka Berpikir ............................................................................................ 25

viii
BAB III .................................................................................................................. 26
  3.1 Metode Penelitian .......................................................................................... 26
  3.2 Ruang Lingkup dan Batasan Penelitian ......................................................... 26
  3.3 Jenis dan Sumber Data .................................................................................. 27
  3.4 Prosedur Pengumpulan Data ........................................................................ 28
  3.5 Teknik Analisis Data ..................................................................................... 29
  3.6 Tahapan Penelitian ....................................................................................... 30
BAB IV ....................................................................................................................... 33
  4.1 Gambaran Umum Perusahaan ..................................................................... 33
    4.1.1 Sejarah Singkat Perusahaan ................................................................. 33
    4.1.2 Visi dan Misi .......................................................................................... 34
    4.1.3 Struktur Organisasi Perusahaan ......................................................... 35
  4.2 Hasil Analisis ................................................................................................ 38
    4.2.1.1 Tahap Define ..................................................................................... 38
    4.2.1.1.1 Diagram SIPOC ......................................................................... 41
    4.2.1.1.2 Critical to Quality ....................................................................... 41
    4.2.2 Tahapan Measure .................................................................................. 46
      4.2.2.1 Diagram Pareto ............................................................................. 46
      4.2.2.2 Mengukur Tingkat DPMO dan Penentuan Level Sigma ............... 47
    4.2.3 Tahapan Analisis .................................................................................... 48
    4.2.4 Tahap Improve ....................................................................................... 52
      4.2.5 Tahap Control ..................................................................................... 52
BAB V ........................................................................................................................ 54
  5.1 Simpulan ........................................................................................................ 57
  5.2 Saran ............................................................................................................... 57
