SKRIPSI

PROFIL PASIEN LANJUT...

SEKAR AFIFAH P.
BAB 4 METODE PENELITIAN ............................................................26
  4.1 Jenis dan Rancangan Penelitian ..................................................26
  4.2 Populasi, Besar Sampel, dan Teknik Pengambilan Sampel .................26
    4.2.1 Populasi ...........................................................................26
    4.2.2 Kriteria Sampel ..................................................................26
    4.2.3 Besar Sampel ....................................................................27
    4.2.4 Teknik Pengambilan Sampel .................................................27
  4.3 Variabel Penelitian dan Definisi Operasional ......................................27
    4.3.1 Variabel ............................................................................27
    4.3.2 Definisi Operasional ............................................................27
  4.4 Instrumen Penelitian .....................................................................28
  4.5 Lokasi dan Waktu ........................................................................29
  4.6 Prosedur Pengambilan atau Pengumpulan Data ....................................29
  4.7 Cara Pengolahan dan Analisis Data ..................................................29

BAB 5 HASIL PENELITIAN ..................................................................30
  5.1 Deskripsi data berdasarkan karakteristik ............................................30
    5.1.1 Distribusi berdasarkan jenis kelamin .......................................30
    5.1.2 Distribusi berdasarkan usia ....................................................30
  5.2 Deskripsi data berdasarkan stroke yang dialami pasien .......................32
    5.2.1 Distribusi berdasarkan jenis stroke ..........................................32
    5.2.2 Distribusi berdasarkan jumlah serangan stroke .........................33
    5.2.3 Distribusi berdasarkan letak paresis .........................................34
  5.3 Deskripsi data berdasarkan faktor risiko stroke yang dimiliki pasien......35
  5.4 Frekuensi komorbiditas ...................................................................36
  5.5 Deskripsi data berdasarkan kunjungan pasien ke Poli Rehabilitasi Medik
    RSUD Dr. Soetomo Surabaya komorbiditas ........................................37

BAB 6 PEMBAHASAN ...........................................................................39

BAB 7 KESIMPULAN DAN SARAN .....................................................48
  7.1 Kesimpulan .................................................................................48
  7.2 Saran .........................................................................................48
