DAFTAR LAMPIRAN ............................................................................... xiv
DAFTAR ARTI LAMBANG, SINGKATAN DAN ISTILAH ..................... xv

BAB I PENDAHULUAN

1.1 Latar Belakang ................................................................................... 1
1.2 Identifikasi Masalah ........................................................................ 5
1.3 Pembatasan dan Rumusan Masalah .............................................. 6
1.4 Tujuan Penelitian ........................................................................... 6
   1.4.1 Tujuan umum .......................................................................... 6
   1.4.2 Tujuan khusus ....................................................................... 7
1.5 Manfaat Penelitian ........................................................................ 7
   1.5.1 Bagi Peneliti ........................................................................ 7
   1.5.2 Bagi Responden .................................................................... 7
   1.5.3 Bagi Instansi atau Tempat Penelitian ..................................... 8

BAB II TINJAUAN PUSTAKA

2.1 Partikel Debu ................................................................................... 9
   2.1.1 Klasifikasi Debu ..................................................................... 10
   2.1.2 Mekanisme debu masuk ke dalam tubuh ................................ 12
   2.1.3 Dampak kesehatan debu dalam tubuh .................................... 14
2.2 Endotoksin Lipopolisakarida (LPS) ............................................ 15
   2.2.1 Struktur LPS ......................................................................... 16
   2.2.2 Ciri khas LPS ....................................................................... 17
   2.2.3 Mekanisme kerja LPS terhadap peningkatan CRP ............. 18
   2.2.4 Efek biologi LPS ................................................................... 19
2.3 C-Reactive Protein (CRP) ............................................................ 20
   2.3.1 Struktur CRP ....................................................................... 21
   2.3.2 Fungsi CRP ......................................................................... 21
   2.3.3 Nilai normal CRP .................................................................. 22
2.4 Pekerja Industri Kapuk .................................................................. 22

viii
BAB III KERANGKA KONSEPTUAL DAN HIPOTESIS .......... 27

3.1 Kerangka Konseptual .................................................. 27
3.2 Hipotesis Penelitian ....................................................... 28

BAB IV METODE PENELITIAN .......................... 29

4.1 Jenis dan Rancangan Bangun Penelitian .................. 29
4.2 Populasi Penelitian ...................................................... 29
4.3 Sampel, Besar Sampel, Cara Penentuan Sampel, dan Cara Pengambilan Sampel .................. 30
4.3.1 Sampel ....................................................................... 30
4.3.2 Besaran sampel .......................................................... 30
4.3.3 Cara penentuan sampel ............................................... 31
4.3.4 Cara pengambilan sampel ........................................... 31
4.4 Lokasi dan Waktu Penelitian ................................. 31
4.5 Variabel, Definisi Operasional, Cara Pengukuran, dan Skala Data .................................................. 32
4.6 Teknik dan Instrumen Pengumpulan Data .......... 33
4.6.1 Teknik pengumpulan data .......................................... 33
4.6.2 Instrumen pengumpulan data ...................................... 40
4.7 Teknik Analisis Data ..................................................... 41

BAB V HASIL PENELITIAN ................................. 42

5.1 Kadar Debu Kapuk Personal ........................................ 42
5.2 Kadar Endotoksin LPS ..................................................... 43
5.3 Karakteristik Pekerja ....................................................... 44
5.3.1 Umur ................................................................. 44
5.3.2 Masa kerja ............................................................ 45
5.3.3 Lama kerja ............................................................ 45
5.3.4 Penggunaan alat pelindung diri (APD) ...................... 46
5.4 Perubahan Kadar CRP ................................................... 47
5.5 Korelasi kadar debu kapuk personal dengan perubahan kadar CRP serum .................................................... 48
5.6 Korelasi Kadar Endotoksin LPS Dengan Perubahan Kadar CRP Serum .................................................... 49
5.7 Korelasi Karakteristik Pekerja dengan Perubahan kadar CRP Serum .................................................... 50

BAB VI PEMBAHASAN ......................................... 53

6.1 Kadar Debu Kapuk Personal ........................................ 53
6.2 Kadar Endotoksin LPS ...................................................... 54
BAB VII KESIMPULAN DAN SARAN

7.1 Kesimpulan ................................................................. 62
7.2 Saran .............................................................................. 62

DAFTAR PUSTAKA ................................................................... 64
