Daftar Tabel ............................................................................................................ xiii
Daftar Gambar ......................................................................................................... xiv
Daftar Lampiran ...................................................................................................... xv
Daftar Singkatan ..................................................................................................... xvi

BAB 1 PENDAHULUAN .......................................................................................... 1
1.1 Latar Belakang .................................................................................................. 1
1.2 Rumusan Masalah ............................................................................................ 4
1.3 Tujuan ................................................................................................................ 4
   1.3.1 Tujuan Umum ......................................................................................... 4
   1.3.2 Tujuan Khusus ....................................................................................... 4
1.4 Manfaat Penelitian .......................................................................................... 5
   1.4.1 Manfaat Teoritis ..................................................................................... 5
   1.4.2 Manfaat Praktis ...................................................................................... 5

BAB 2 TINJAUAN PUSTAKA .................................................................................. 6
2.1 Kolagen ............................................................................................................. 6
   2.1.1 Struktur Kolagen .................................................................................... 8
2.1.2 Kolagen Tipe 1 ................................................................. 8
2.2 Sisik Ikan Gurami .............................................................. 9
  2.2.1 Kandungan Sisik Ikan Gurami ............................. 10
  2.2.2 Kolagen Sisik Ikan Gurami ............................... 11
2.3 Rekayasa Jaringan .......................................................... 13
  2.3.1 Penggunaan Kolagen dalam Rekayasa Jaringan 14
2.4 Denaturasi Kolagen ......................................................... 15
  2.4.1 Denaturasi Suhu Kolagen ................................. 15
  2.4.2 Metode Pengukuran Denaturasi Suhu Kolagen 17

BAB 3 KERANGKA KONSEPTUAL .............................................. 19
  3.1 Kerangka Konseptual Penelitian ............................. 19
  3.2 Keterangan Kerangka Konsep ................................. 20

BAB 4 METODE PENELITIAN ................................................ 21
  4.1 Jenis Penelitian ............................................................. 21
  4.2 Rancangan Penelitian ............................................... 21
  4.3 Lokasi dan Waktu Penelitian .................................. 21
  4.4 Populasi ................................................................. 21
  4.5 Sampel ................................................................. 21
  4.6 Variabel Penelitian .................................................... 22
    4.6.1 Variabel Bebas ................................................ 22
    4.6.2 Variabel Terikat ............................................... 22
    4.6.3 Variabel Terkendali ......................................... 22
  4.7 Definisi Operasional Variabel .................................. 22
  4.8 Instrumen Penelitian ................................................ 23
    4.8.1 Alat Penelitian ............................................... 23
    4.8.2 Bahan Penelitian ............................................. 23
  4.9 Prosedur Penelitian .................................................... 24
DAFTAR TABEL

Tabel 2.1 Tata nama (taksonomi) ikan gurami.............................................. 10

Table 2.2 Perbandingan antara kolagen mamalia dan kolagen marine ...... 11

Tabel 5.1 Viskositas ekstrak kolagen sisik ikan gurami pada tiap titik suhu ................................................................. 30

Tabel 5.2 Fractional Viscosity pada tiap titik suhu ........................................ 31

Tabel 6.1 Suhu denaturasi dari berbagai macam ikan ................................. 35
DAFTAR GAMBAR

Gambar 2.1. Stuktur *triple-helix* kolagen................................................. 7

Gambar 2.2. Struktur kimia kolagen tipe 1. ................................................ 9

Gambar 2.3  Hasil *Fourier Transform Infrared Spectroscopy* ekstrak
kolagen sisik ikan gurami ................................................................. 13

Gambar 2.4 Viskometer Ostwald ............................................................... 18

Gambar 5.1 Hasil ekstraksi sisik ikan gurami ......................................... 29

Gambar 5.2 Grafik kurva denaturasi suhu ekstrak kolagen sisikikan
gurami............................................................................................... 32
DAFTAR LAMPIRAN

Lampiran 1 Keterangan Laik Etik ................................................................. 43
Lampiran 2 Dokumentasi Ekstraksi Kolagen dari Sisik Ikan Gurami............ 44
Lampiran 3 Dokumentasi Pengukuran Suhu Denaturasi .............................. 46
Lampiran 4 Hasil Pengukuran Suhu Denaturasi Kolagen Sisik Ikan Gurami . 48
Lampiran 5 Hasil Analisis Statistik Deskriptif Viskositas.............................. 50
