 To: Dr., MSi., Apt. Juni Ekowati

Dear Dr., MSi., Apt. Juni Ekowati,

This is to confirm that we have received your review for the manuscript, "In Silico Study (Molecular Docking and Toxicity Prediction) of Vemurafenib Derivatives As Antimelanoma Agents" (MSID:8180), for Journal of Mathematical and Fundamental Sciences. We appreciate the time that you have contributed to this important component of the peer-review process.

Your cooperation is greatly appreciated, and we hope that you will consider the Journal of Mathematical and Fundamental Sciences as a potential journal for your own next publication.

Journal of Mathematical and Fundamental Sciences has partnered with Publons, the world's leading peer review platform, to officially recognize your peer review contributions.

When you review for Journal of Mathematical and Fundamental Sciences you will be asked if you want to track, verify and get recognition for that review on Publons. You can then use your verified peer review record as evidence of your contributions to the scientific community in promotion and funding applications. You can forward this email to reviews@publons.com to achieve peer review recognition.

Publons also gives you access to a range of tools and data so you can see how your review efforts compare with others. Please visit <https://publons.freshdesk.com/support/solutions/articles/12000012195> for further information.
