## SYNOPSIS

*Doctor Strange*(2016) is an American superhero film based on the marvel characters of the same name. It tells about an arrogant neurosurgeon who proud in his ability to perform a delicate surgery with 100% accuracy. However one day, he gets into an accident that makes him lose the function of his hands. He desperately tried to heal his hands and after following seven different medical procedures and fails, he then tries to find another way to heal his hands. When he is having his physiotherapy session, he learns from the pyshiotherapist that one of the patient with an injury more severe than his actually healed. He then found out that the patient name is Jonathan Pangborn and that he refused to operate him because of the severity of his injury. Doctor Strange then asks Pangborn about his healing method, and it leads him to Kamar Taj in Kathmandu, Nepal. In Kathmandu, he then meets Mordo, a senior disciple in Kamar Taj that helps him to find the place and meets the Ancient One, the leader in Kamar Taj. Doctor Strange then learns about the mystical power beyond the universe and masters the knowledge by reading books and practices it every day. He then managed to earn trust of the Cloak of Levitation and able to use the Eye of Agamotto to practice the manipulation of time from the book of Cagliostro. He almost ruins the balance of the dimensions when Mordo and Wong come to scold him and finally explains to him about the truth of their duty. Once he learns the truth about their real duties, one of the former masters in *KamarTaj*, Kaecilius, attack the sanctums that protect the world from Dormammu, the evil creature from the dark dimension. Strange, Mordo, and Wong join forces to protect the sanctums, and the Ancient

One dies in the process. Strange finally defeat Dormammu using the magical power of the East to manipulate time which is considered the power of the West.
