AM

Dear Dr. Hariyadi,

Congratulations, the manuscript titled "Current Status of Alginate in Drug Delivery" has been successfully submitted to Advances in Pharmacological and Pharmaceutical Sciences.

We will confirm this submission with all authors of the manuscript, but you will be the primary recipient of communications from the journal. As submitting author, you will be responsible for responding to editorial queries and making updates to the manuscript.

In order to view the status of the manuscript, please visit the manuscript details page.

Thank you for submitting your work to Advances in Pharmacological and Pharmaceutical Sciences.

Dear Dr. Hariyadi,

In order for your submission "Current Status of Alginate in Drug Delivery" to Advances in Pharmacological and Pharmaceutical Sciences to proceed to the review process, there needs to be a revision.

Reason & Details: "Revise - Minor"

For more information about what is required, please click the link below.

Revision requested

Message For Author

Revise - Minor

Srinivas Mutalik **AE** 10.06.2020**— Reviewer Reports**

3 submitted

Report**Reviewer 1** 09.06.2020

This review article describes potential of alginates in drug delivery and shows potential contributions to the pharmaceutical sciences area. This paper reviewed much updated references with at least 10 years publications.

Some minor comments and corrections are needed as follows:

Authors should elaborate references mentioned in the tables to make table more concise or reduce numbers of references if needed.

Formatting the references list should be according to submission Guidelines. Please check whether the journal title should be abbreviated or not.

English needs to be improved. Some grammatical errors should be checked and revised.

Please provide a harmonization in using "Microparticles" or "microspheres".

Report**Reviewer 3** 30.05.2020

Alginates being the natural polymers and approved by US FDA has been explored by many research reports worldwide especially for delivery of drugs and there are many reports which have shown the successful applications of alginates for this purpose.

The authors have provided the thorough review of application of alginates for drug delivery, they covered in details the chemistry of the alginates and then various methods used for modification of alginate molecules so that these can provide either nano particles drug delivery or for sustained release of the drugs.

The authors also discussed in details the kinetics of the alginate drug delivery systems and applications using various routes of administration including the ophthalmic drug delivery systems based on alginates.

Subsequently they have discussed the toxicity of the alginates drug delivery systems and showed the advantages of using these natural modified polymers which have shown significant flexibility.

with over 200 references the authors have written an extensive review and I strongly recommend to publish the review in your esteemed journal

I would like to congratulate the authors for their wonderful work

Report**Reviewer 2** 09.06.2020

The submitted manuscript presents a comprehensive review on the use of Alginate for drug delivery applications. The authors have focused on the various routes of alginate-based drug or protein delivery, the effectivity of alginate in stem cells and cell encapsulation and recent advances on the in-vivo alginate-based drug delivery systems as well as their toxicities. Overall, the manuscript is detailed and well written. However, there a few grammatical and typographical errors in certain sentences. Also, scientific names must be written in italics. The authors should carefully check and revise accordingly.

Hindawi Invoicing <invoices@hindawi.com>
To: dewi-m-h@ff.unair.ac.id

Sat, Jun 20, 2020 at 11:51 AM

Dear Dr. Dewi Hariyadi,

Thank you for choosing Hindawi to publish your manuscript

We are pleased to inform you that your manuscript, Current Status of Alginate in Drug Delivery, has been accepted for publication in the journal, Advances in Pharmacological and Pharmaceutical Sciences. We will be in touch shortly to request electronic files for your manuscript.

The publication process will begin upon the receipt of these files.

As an open access journal, Advances in Pharmacological and Pharmaceutical Sciences has an associated Article Processing Charge of USD 950. The total charges for your manuscript 8886095, before any taxes, is USD 950.

VAT charges may apply depending on the country of the individual or institution being billed. Individuals resident in the UK or an EU Member state will be charged VAT. Institutions registered in the UK or an EU Member state should also provide their VAT number when completing the payer information. VAT is calculated at the applicable rate, currently 20%, on the net USD amount and this VAT charge will be available for review on the invoice prior to confirmation.

What to do next?

This invoice is payable upon receipt. You can view the invoice for your article, confirm billing details, apply coupons and make payment through the following URL:

[INVOICE DETAILS](#)

You do not need to log in to your account to access the link. After entering your billing address information, you will be able to pay by credit card, PayPal or bank transfer. We are unable to accept payment by check.

If paying by **credit card**, we accept **Visa**, **Mastercard**, **Discover** and **Maestro**. If your credit card is not one of these then you may be able to use **PayPal** to make payment using your credit card.

If paying by **bank transfer**, please use invoice number **91434/2020** in the payment reference and return a scanned copy of the bank payment authorization by email to invoices@hindawi.com to help us track your payment. Please note that bank transfer payments can take up to a week to arrive and will be confirmed as soon as funds have cleared.

If the payment needs to be made by your institution or by another author, you can forward them the invoice link in this email and they will be able to make payment directly. However, please note that as the author that submitted the article remains responsible for ensuring payment is made in full, you may be contacted if this institution or author does not make payment.

Got a question?

If you have any questions related to the invoice, just reply to this email and our Customer Service team will be happy to help.

Hindawi respects your right to privacy. Please see our [privacy policy](#) for information on how we store, process, and safeguard your data.

8886095: Galley Proofs

Advances in Pharmacological and Pharmaceutical Sciences <production.b@hindawi.com> Sat, Jul 25, 2020 at 12:09 AM

To: dewi-m-h@ff.unair.ac.id

Cc: nazrul.islam@qut.edu.au

Dear Dr. Dewi,

I am pleased to let you know that the first set of galley proofs of your Review Article 8886095 titled "Current Status of Alginate in Drug Delivery," is ready. You can apply your corrections directly to the manuscript with the Online Proofing System (OPS).

Using the OPS, you can quickly and easily make corrections directly to your galley proofs and submit these corrections with a single click.

<https://ops.hindawi.com/author/8886095/>

If a new corresponding author is added, they must log into their manuscript tracking system account and add their ORCID ID. Any additional ORCID IDs added on during proofing will also need to be updated on that author's account. Delays can occur if this isn't done.

To expedite the publication of your manuscript, please send us your corrected galley proofs within three days.

Please ensure that you read the proofs thoroughly and make all necessary corrections at this stage. A second round of proofs may be requested only for checking essential changes or major revisions.

Best regards,

--

Hindawi Production Team
