

Decision for CEP-190063

Dari: CEP Journal Office (em@editorialmanager.com)

Kepada: purwo_faal@yahoo.com

Tanggal: Kamis, 7 November 2019 01.29 WIB

Dear Mrs Rejeki,

Manuscript number: CEP-190063

Title: High intensity exercise increases brain derived neurotrophic factor expression and the number of hippocampal neurons rather than moderate intensity exercise

Editor's decision: Minor Revision

Reviewers have now commented on your paper, and you will see that they are advising you to make some changes to your manuscript. If you are prepared to undertake the work required I would be pleased to reconsider your paper. The reviewers' comments are appended below.

If you decide to revise the work, please submit a response to the reviewers' comments when you submit the revised manuscript.

Your revision is due by 27 Nov 2019.

To submit a revision, go to <https://www.editorialmanager.com/ecep/> and log in as an Author. You will be able to find and revise your submission in the 'Submission Needing Revision' folder.

Kind regards,

Kenneth H. McKeever, PhD. FACSM, FAPS
Editor-in-Chief
Comparative Exercise Physiology

Comments to Author:

Editor: This is an interesting paper that advances the scientific literature. Please have the paper checked for English usage, grammar, etc..

Reviewer #1:

1. In the title, it may be

"High intensity exercise increases brain derived neurotrophic factor expression and the number of hippocampal neurons rather than moderate intensity exercise in rats

2. In abstract

* The result of this study shows showed that BDNF of G1.. G2.. G3? Please describe the abbreviation before you use it in next sentences.

* Data were analyzed by Statistic Package for Social Science (SPSS) software. with anova/ others?

3. English needs improvement.

Several sentences should be in past tenses, eg in result or fig. or tables
