### ORIGINALITY STATEMENT

I as stated below:

Name : Nabila Ananda Kloping

NIM : 011711133216

Study Program : Medicine

Faculty : Medicine

Educational Level : Bachelor (S1)

State that I do not plagiarize in the making of my undergraduate thesis which titled:

### **RISK FACTORS FOR DELIRIUM IN GERIATRICS UNDERGOING MAJOR ORTHOPEDIC SURGERIES**

If it is proved that I do plagiarize, I am willing to receive any consequences which have been set from the ethic committee and faculty.

Thus, I made this statement in truth.

Surabaya, 7 July 2020

Nabila Ananda Kloping

NIM 011711133216

## ACKNOWLEDGMENT

First and foremost, I would like to thank both my supervisor Novira Widajanti dr., Sp.PD.K-Ger,FINASIM and Teddy Heri Wardhana dr., Sp.OT(K) who had been guiding me throughout the making of this research paper, and dr. Erikavitri Yulianti, dr. SpKJ(K) as my examiner.

I also could not have created this thesis without the staffs from medical record team, nurses, and doctors who really did great job in producing high quality medical records. There were also numerous people like my family and friends who had been a really huge support but unfortunately, I cannot list all of their names. Nevertheless, I am very grateful for them either in teaching me or just being there for emotional support.

I am just a mere pre-clinical medical student who did not understand a single thing about research until last year. However, with this research paper, I finished one chapter of my life and finally moving on.
