xxi + 97 halaman, 31 lampiran

Penelitian ini bertujuan untuk mengetahui hubungan antara persepsi gaya pengasuhan otoritatif dengan keterampilan sosial remaja yang kecanduan game online. Subjek penelitian ini adalah remaja usia 12-19 tahun dengan jumlah subjek sebanyak 87 (34 siswa SMP dan 53 siswa SMA).

Penelitian ini menggunakan alat ukur yang disusun berdasarkan teori gaya pengasuhan otoritatif milik Baumrind (1966) dan teori keterampilan sosial milik Hair, Jager, & Garrett (2002). Pemilihan subjek menggunakan The Development of Indonesian Online Game Addiction Questionnaire milik Jap, Triati, Jaya, & Suteja (2013). Analisis data menggunakan tehnik korelasi Spearman's Rho menggunakan program SPSS versi 16.

Hasil penelitian menunjukkan nilai koefisien korelasi antara persepsi gaya pengasuhan otoritatif dengan keterampilan sosial yakni 0,477 dan signifikansi 0,000. Hal ini menunjukkan bahwa persepsi gaya pengasuhan otoritatif memiliki hubungan positif dan signifikan dengan keterampilan sosial remaja yang kecanduan game online.

Kata kunci: gaya pengasuhan otoritatif, keterampilan sosial, remaja, kecanduan *game online*

ABSTRACT

Resi Shaumia Ratu E. P., 111011141, The Correlation Between Perception of Authoritative Parenting Style and Social Skills in Adolescence with Game Online Addiction, *Undergraduate Thesis*, Faculty of Psychology Airlangga University, 2014.

xxi, 97 pages, 31 appendix

This study aimed to determine whether there is a correlation between perception of authoritative parenting style and social skills in adolescence with game online addiction. The participants of this research were adolescents aged 12-19 years with a total number of 87 subjects (34 Junior High School student and 53 High School students).

This study used measurement tool that based on the theory of authoritative parenting belongs to Baumrind (1966) and the theory of social skills belongs Hair, Jager, & Garrett (2002). Subjects are selected using The Development of Indonesian Online Game Addiction Questionnaire by Jap, Triati, Jaya, & Suteja (2013). Data were analyzed using Spearman's Rho correlation techniques using SPSS version 16.

The results showed correlation coefficient score between perceived authoritative parenting style with the social skills of 0.477 and significance of 0.000. This suggests that the perception of an authoritative parenting style has a positive and significant correlation with the social skills of adolescents who addicted to online gaming.

Keywords: authoritative parenting, social skills, adolescents, game online addiction
