

## RINGKASAN

Rafik Fajar Yunansyah, 111042006, *Self-Regulated Learning* Mahasiswa dalam Kuliah yang menerapkan Metode Active Learning, *Tesis*, Fakultas Psikologi Universitas Airlangga Surabaya, 2013.  
xiv + 69 halaman, 3 lampiran.

*Tujuan penelitian ini adalah menggambarkan Self-Regulated Learning mahasiswa dalam kuliah yang menerapkan metode Active Learning sehingga bentuk belajar yang tepat dan pembekalan yang diperlukan dapat diketahui. Subjek penelitian kualitatif bertipe studi kasus ini adalah 8 mahasiswa Fakultas Psikologi Unair Surabaya. Penggalian data dilakukan dengan wawancara mendalam dan analisis menggunakan analisis tematik. Hasil penelitian menunjukkan bahwa self-regulated learning mahasiswa meliputi: forethought (tujuan belajar, self-efficacy, motivasi internal), performance (strategi belajar, pemusatatan atensi), dan refleksi-diri (atribusi, self-satisfaction, adaptasi). Adapun pengalaman belajar mahasiswa meliputi: inti active learning (refleksi pada diri sendiri, aktivitas kelas yang dinamis, dan praktik), perasaan (positif dan negatif), motivasi belajar, demotivasi belajar, dan persiapan yang dibutuhkan.*

**Kata kunci:** *self-regulated learning, active learning*
