

## ABSTRAK

Radityo Prastowo Putro, 110710171, Hubungan antara *Job Security* dengan *Obedience* pada PNS Badan Pemberdayaan Perempuan dan Keluarga Berencana Kabupaten Jember, *Skripsi*, Fakultas Psikologi Universitas Airlangga Surabaya, xvi + 46 halaman, 7 lampiran

*Penelitian ini bertujuan untuk mengetahui apakah terdapat hubungan antara job security dengan obedience. Job security adalah keyakinan individu akan keamanan dan kelangsungan kerja. Obedience adalah tingkat kepatuhan individu terhadap otoritas yang lebih tinggi.*

*Penelitian dilakukan pada PNS yang bekerja di BPPKB Kabupaten Jember. Subjek penelitian berjumlah 35 orang. Pengumpulan data berupa kuesioner yang dibagi terdiri atas Skala Obedience dan Skala Job Security. Analisis dilakukan dengan teknik statistik korelasi product moment pearson, dengan bantuan program statistik SPSS versi 17 for Windows.*

*Hasil analisis data penelitian menunjukkan koefisien korelasi  $r = 0,013$  dengan  $p$  sebesar 0,941. Hal ini berarti tidak ada hubungan antara job security dan obedience pada subjek.*

**Kata kunci:** *obedience, job security*
