Penelitian ini bertujuan untuk mengetahui hubungan antara keyakinan motivasional orang tua dengan keterlibatan orang tua dalam pendidikan anak usia dini

Penelitian dilakukan pada orang tua peserta didik taman kanak-kanak di TK PKK Kalijudan dengan jumlah subjek sebanyak 75 pasangan. Alat ukur yang digunakan berupa kuisioner keyakinan motivasional orang tua yang terdiri dari 20 butir pernyataan dan keterlibatan orang tua dengan 19 butir pernyataan. Kedua alat ukur tersebut disusun sendiri oleh penulis. Analisis data dilakukan dengan teknik korelasi product momen Pearson, dengan bantuan program statistik SPSS versi 20.

Dari hasil analisis data penelitian diperoleh koefisien korelasi antara keyakinan motivasional orang tua dan keterlibatan orang tua sebesar 0,605 dengan signifikansi 0,00. Hal ini menunjukkan terdapat hubungan yang kuat antara keyakinan motivasional orang tua dengan keterlibatan orang tua di TK PKK Kalijudan. Koefisien korelasi menunjukkan arah yang positif yang berarti semakin tinggi keyakinan motivasional orang tua, semakin tinggi keterlibatan orang tua..

Kata kunci: keyakinan motivasional orang tua, keterlibatan orang tua, pendidikan anak usia dini

ABSTRACT

Ayu Suci Wulandari, 111011154, The Relationship between Parents' Motivational Beliefs with Parental Involvement in Early Education, *Undergraduate Thesis*, Faculty of Psychology Airlangga University, 2014

xx+108pages, 9 appendix.

The present study aims to examine the relationship between parents' motivational beliefs with parental involvement in early education.

The study was conducted on 75 parents (mother and father) of students in TK PKK Kalijudan. Measuring instruments used in this study is parents' motivational beliefs scale and parental involvement scale. Parents' motivational beliefs consists of 20 items, while parental involvement scale consists of 19 items. Both scales are composed by author. Data analysis was performed with the statistical technique of Pearson product moment correlation, using the statistical program SPSS version 20.

From the analysis of the research data obtained correlation between parents' motivational beliefs and parental involvement is about 0,605 with significance score 0,00. This suggests that there was a strong relationship between parents' motivational beliefs and parental involvement in early education. Correlation coefficient shows positive direction which means the higher parents' motivational beliefs, the higher parental involvement.

Keyword: *parents' motivational beliefs, parental involvement, early education.*
