to me

Dear Dr. Sindy Nelwan,

The PDF for your submission, "Impact of Scaling and Root Planing on Level of Immunoglobulin-E and Immunoglobulin G4 in Gingivitis Children with House Dust Mite Allergy: A Randomized Controlled Trial" is ready for viewing.

This is an automatic email sent when your PDF is built. You may have already viewed and approved your PDF while on-line, in which case you do not need to return to view and approve the submission

Please go to <https://www.editorialmanager.com/sdj/> to approve your submission.

Username: sindy-c-n

Password: <https://www.editorialmanager.com/sdj/l.asp?i=3753&l=8TIXTMZB>

Your submission must be approved in order to complete the submission process and send the manuscript to the **Singapore Dental Journal** editorial office.

Please view the submission before approving it to be certain that your submission remains free of any errors.

Thank you for your time and patience.

Editorial Office Staff

Singapore Dental Journal (SDJ) <em@editorialmanager.com> to me

Ref.: Ms. No. SDJ-D-19-00025
Impact of Scaling and Root Planing on Level of Immunoglobulin-E and Immunoglobulin G4 in Gingivitis Children with House Dust Mite Allergy: A Randomized Controlled Trial
[Singapore Dental Journal](#)

Dear Dr. Sindy Nelwan,

Reviewers have now commented on your paper. You will see that they are advising that you revise your manuscript. If you are prepared to undertake the work required, I would be pleased to reconsider my decision.

For your guidance, reviewers' comments are appended below.

I have gone through your reference by Korn et al 2012. Your input for power calculation may have been incorrect. The reference reports that "Elisa was able to assay free IgE in a concentration range of 1-2000 IU/ml". This is not the same as "1-2000 pg/ml". Please would you rephrase this part of your work.

Further the patients in Korn's work were all on omalizumab and their IgE could be averaged about 100ng/ml. In your work were these patients on the same drugs? If not could the values of Korn et al's work be applied in your sample calculation? It would be instructive for you to consult a biostatistician on this.

I am prepared to accept your work for publication if this work is rewritten as a pilot study for a larger study as I think this work merits further investigation.

If you decide to revise the work, please submit a list of changes or a rebuttal against each point which is being raised when you submit the revised manuscript.

Your revision is due by Jun 17, 2019.

To submit a revision, go to <https://www.editorialmanager.com/sdj/> and log in as an Author. From the main menu, select the item "Submissions Needing Revision" and you will find your submission in that folder.

Yours sincerely

Chee-Peng SUM

Singapore Dental Journal (SDJ) <em@editorialmanager.com> to me Jun 8, 2019, 10:43 AM

Ref.: Ms. No. SDJ-D-19-00025R2
Impact of Scaling and Root Planing on Level of Immunoglobulin-E and Immunoglobulin G4 in Gingivitis Children with House Dust Mite Allergy: A Pilot Randomised Controlled Trial

Singapore Dental Journal

Dear Dr. Sindy Nelwan,

I am pleased to inform you that your work has now been accepted for publication in Singapore Dental Journal. There are still a few small errors in English and formatting which we will correct at the proof stage.

I am excited by this original work, which I am hopeful of helping more people realise that the practice of dentistry is beyond aesthetics and handy-work to repair what is broken down but is something that brings long term positive health benefits to the patient.

It was accepted on Jun 07, 2019.

If you wish to have your article published as Open Access, please note the Article-Processing Charge (APC) is USD2000. You may contact us or visit <https://www.worldscientific.com/page/open> for more details.

Comments from the Editor and Reviewers can be found below.

Thank you for submitting your work to this journal.

With kind regards

Chee-Peng SUM
Editor-in-Chief
Singapore Dental Journal
