

**TABLE OF CONTENTS**

PENGESAHAN .....	iv
PERSETUJUAN .....	v
PERNYATAAN ORIGINALITAS .....	v
KATA PENGATAR .....	vii
SUMMARY .....	ix
ABSTRACT .....	xi
TABLE OF CONTENTS .....	xii
LIST OF TABLES .....	xiv
LIST OF FIGURES.....	xv
APPENDICES.....	xvi
LIST OF SYMBOLIC MEANINGS .....	xvii
LIST OF ABBREVIATIONS .....	xvii
CHAPTER 1.....	1
1. INTRODUCTION.....	1
1.1. Background.....	1
1.2. Problem statement.....	7
1.3. Formulation of the problem .....	12
1.4. Research Objectives.....	12
1.5. Benefits of research.....	13
CHAPTER 2.....	15
2. LITERATURE REVIEW.....	15
2.1. Reciprocal influence of HIV and Tuberculosis (TB) .....	15
2.2. Management of Persons living with HIV (PLWHIV) and suspected of having Tuberculosis .....	18
2.3. Antiretroviral and Anti-TB therapeutic drug combinations .....	23
2.4. Optimal time to start antiretroviral therapy in HIV-infected TB patients. .	24
2.5. Diagnostic issues in the identification of Tuberculosis in people living with HIV.....	25
2.6. Factors that influence Tuberculosis treatment outcome.....	25
2.7. Monitoring progress of Tuberculosis treatment .....	28
CHAPTER 3.....	30
3. THEORETICAL AND CONCEPTUAL FRAMEWORKS .....	30
3.1. Conceptual Framework .....	30
3.2. Hypothesis.....	35
CHAPTER 4.....	36
4. METHOD OF RESEARCH.....	36
4.1. Type of the research.....	36

4.2. Design of the research .....	36
4.3. Location and Time of the research.....	37
4.4. Population and Sample .....	37
4.5. Operational framework.....	39
4.6. Research Variables, Operational Definitions and Variable Measurement .	40
4.7. Technique and data collection procedures .....	42
4.8. Data Processing and Analysis.....	42
CHAPTER 5.....	44
5. ANALYSIS AND RESULTS .....	44
5.1. Demographic characteristics of the data .....	44
5.1. Relationship of the Independent variables with the exposure.....	47
5.2. Effect of the Exposure to Tuberculosis treatment outcome.....	49
5.3. Cofounding effect of the independent variables on the relationship between Exposure (HIV) and Tuberculosis treatment Outcome.....	49
5.4. Multivariate binary logistic regression.....	53
CHAPTER 6.....	55
6. DISCUSSION .....	55
CHAPTER 7.....	67
7. CLOSURE.....	67
7.1. Conclusion .....	67
7.2. Suggestion.....	68
REFERENCES.....	70
APPENDICES.....	78

## LIST OF TABLES

Table 4.1 Research variables, Operational definitions, Unit of Measurement and Means of data collection. ....	40
Table 5.1 Summary statistics for AGE .....	44
Table 5.2 Independent samples t-test for AGE .....	45
Table 5.3 Relationship of the independent variables and the Exposure.....	48
Table 5.4 Effect of Exposure to the TB Treatment outcome .....	49
Table 5.5 Effect of confounding variables on the relationship between Exposure (HIV) and Treatment Outcome .....	50
Table 5.6 Multivariate binary logistic regression: Independent variables that influence Treatment outcome .....	53

**LIST OF FIGURES**

Figure 1.1 Trend of Tuberculosis cases versus the Projections and Targets in Surabaya city: 2015-2019..... 6

Figure 1.2 Percentage of HIV Positive TB coinfectd Patients among Annual-Notified TB Patients in Indonesia, 2009 - 2017..... 8

Figure 1.3 Tuberculosis treatment success for Tuberculosis Patients (All Cases) in Indonesia, 2008 - 2017..... 9

Figure 1.4 Tuberculosis treatment outcomes (ALL cases), 2017..... 10

Figure 1.5 Tuberculosis treatment Success Rate of all Cases per Province in Indonesia, 2018 SD TW-3 (*Update: As at 16-10-2019*)..... 10

Figure 2.1 Algorithm for Assessing Tuberculosis Risk and Disease in a HIV- Positive person ..... 21

Figure 3.1 Conceptual framework..... 34

Figure 4.1 Operational Framework ..... 39

Figure 5.1 TB treatment outcomes: Treatment success and Treatment failure..... 46

Figure 5.2 TB treatment outcomes versus TB treatment time in both HIV Positive and HIV Negative patients ..... 47

## APPENDICES

APPENDIX 1: Independent sample T-test for AGE.....	78
APPENDIX 2: Relationship between the exposure (HIV) and TB Treatment success .....	79
APPENDIX 3: Relationship between the Age group (15-45) and TB Treatment success .....	80
APPENDIX 4: Relationship between the Age group (45 and above) and TB Treatment success and Summary results .....	81
APPENDIX 5: Relationship between Gender (Male) and TB Treatment success.....	82
APPENDIX 6: Relationship between Gender (Female) and TB Treatment success and Summary results .....	83
APPENDIX 7: Relationship between Diabetes Mellitus (No) and TB Treatment success ....	84
APPENDIX 8: Relationship between Diabetes Mellitus (Yes) and TB Treatment success and Summary results .....	85
APPENDIX 9: Relationship between TB History (New case) and TB Treatment success ....	86
APPENDIX 10: Relationship between TB History (Relapse) and TB Treatment success and Summary results .....	87
APPENDIX 11: Relationship between patient category (Category 1) and TB Treatment success .....	88
APPENDIX 12: Relationship between patient category (Category 2) and TB Treatment success and summary results .....	89
APPENDIX 13: Relationship between TB clinical form (Pulmonary TB) and TB Treatment success .....	90
APPENDIX 14: Relationship between TB clinical form (Extra-Pulmonary TB) and TB Treatment success and summary results.....	91
APPENDIX 15: Multivariate binary logistic regression.....	92
APPENDIX 16: Permohonan izin Penelitian ke Dinas Kesehatan Kota Surabaya .....	93
APPENDIX 17: Ethic clearance certificate .....	94
APPENDIX 18: Permohonan izin Penelitian ke Bakesbang Politik & Linmas Kota Surabaya .....	95
APPENDIX 19: Rekomendasi penelitian dari Bakesbang Politik & Linmas Kota Surabaya	96

### LIST OF SYMBOLIC MEANINGS

<	Less than
>	More than
%	Percentage
$\alpha$	Level of significance

### LIST OF ABBREVIATIONS

AFB	Acid-Fast Bacilli
AIDS	Acquired Immune Deficiency Syndrome
ARV	Antiretriviral Therapy
CD4	Cluster of differentiation
CI	Confidence Interval
DinKes	Dinas Kesehatan
EPTB	Extra Pulmonary Tuberculosis
HIV	Human Immunodeficiency Virus
MDR-TB	Multidrug resistant Tuberculosis
PLHIV	People Living with HIV
PTB	Pulmonary Tuberculosis
RR	Relative Risk
SEARO	South East Asia Regional Office
SITT	Sistem Informasi Tuberculosis Terpadu
TB	Tuberculosis
TPT	Tuberculosis Preventative Treatment
UNAIDS	Joint United Nations Programme on HIV/AIDS
WHO	World Health Organization
