

FINAL SCIENTIFIC ASSIGNMENT
INTERNATIONAL DENTAL COURSE

Ectopic Calcification in *caALK2* mice

Tasya Dentria Chiefianggi
C160251

Department of Calcified Tissue Biology
School of Dentistry, Hiroshima University
Hiroshima, Japan
2020

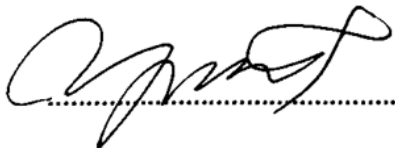

This final scientific assignment was completed to fulfill
the requirement of bachelor program from
Faculty of Dental Medicine Airlangga University under
INTERNATIONAL DENTAL COURSE (IDC)
PROGRAM 2016 - 2020,
A transfer credit program between
School of Dentistry Hiroshima University Japan and
Faculty of Dental Medicine Airlangga University Indonesia

APPROVAL SHEET

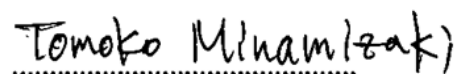

We certify that we have read the final scientific assignment

Prepared by : Tasya Dentria Chiefianggi

Entitled : Ectopic Calcification in *caALK2* mice

Professor Yuji Yoshiko, PhD
Department of Calcified Tissue Biology
Hiroshima University
Institute of Biomedical and Health Science

Asst. Prof. Tomoko Minamizaki, DDS, PhD
Department of Calcified Tissue Biology
Hiroshima University
Institute of Biomedical and Health Science

JUDGES

This Final Scientific Assignment has been presented on August 25th, 2020

- 1. Professor Yuji Yoshiko, PhD**
- 2. Assist. Professor Tomoko Minamizaki, DDS, PhD**

SURAT PERNYATAAN TENTANG ORISINALITAS

Yang bertanda tangan di bawah ini, saya:

Nama : Tasya Dentria Chiefianggi

NIM : 021511133107

Program Studi : Pendidikan Dokter Gigi

Fakultas : Kedokteran Gigi

Jenjang : Sarjana (S1)

Menyatakan bahwa saya tidak melakukan plagiat dalam penulisan skripsi saya yang berjudul:

ECTOPIC CALCIFICATION IN *caALK2* MICE

Apabila pada suatu saat nanti terbukti melakukan tindakan plagiat, maka saya akan menerima sanksi yang telah ditetapkan.

Demikian surat ini saya buat dengan sebenar-benarnya.

Surabaya, 10 Februari 2021

Tasya Dentria Chiefianggi

ACKNOWLEDGEMENT

All praises to Allah SWT The Almighty, The Most Gracious and Most Merciful, for His continuous blessing, guidance and strength so that I can have the great opportunity to join this program and finally completing this final scientific assignment.

This final scientific assignment was completed to fulfill the requirement of bachelor program from Faculty of Dental Medicine Airlangga University. The contents of this final scientific assignment were taken from the results of research activity at Calcified Tissue Biology Department, School of Dentistry Hiroshima University during International Dental Course (IDC) Program 2016-2020. I would like to use this occasion to dedicate my gratitude towards the following people for their continuous help and support during this program.

First, I would like to express my gratitude to Professor Kotaro Tanimoto, Dean of School of Dentistry Hiroshima University and also my tutor professor, for your continuous support and help during my four years study in Hiroshima University. Further appreciation is extended to Professor Koichi Kato, Former Dean of School of Dentistry Hiroshima University; Professor Takashi Takata, Founder of IDC Program; all professors and teachers in School of Dentistry who taught and guide us from the start until the end of this program. I am forever grateful for all the knowledge I gained from all of you.

I am deeply thankful for Professor Darmawan Setijanto, Former Dean of Faculty of Dental Medicine Airlangga University; Professor Anita Yuliati, and Dr. Rini Devijanti Ridwan, Former Vice Dean of Faculty of Dental Medicine Airlangga

University, for giving me the opportunity to join this program and for all the help during these four years.

Further appreciation is extended to Dr. Agung Sosiawan, Dean of Faculty of Dental Medicine Airlangga University; Dr. Ira Widjiastuti, Dr. Andra Rizqiawan and Dr. Muhammad Luthfi, Vice Dean of Faculty of Dental Medicine Airlangga University, for the help and support throughout this program.

My deepest gratitude goes to Professor Yuji Yoshiko, Chairman of Calcified Tissue Biology Department Hiroshima University, for allowing me to join the lab and being my research supervisor. I am very thankful for all the knowledge, advices and help during the research. I gain a lot of new insights in the laboratory and I will treasure it always.

I would like to extend my gratitude to Dr. Tomoko Minamizaki, Assistant Professor of Calcified Tissue Department Hiroshima University; Toshi-san, Kohno Sensei, Nushrat, Faisal, Ogasawara Sensei, Maru, and all members of the laboratory for all the support and help during my research in the laboratory. Thank you for making my research experience fun and interesting. I am so grateful to be welcomed in this lab.

I wish to express my gratefulness to Professor A. Retno Pudji Rahayu, my supervisor from Airlangga University, for the support and sincere guidance for this final scientific assignment.

I want to thank Dr. Devi Rianti, Dr. Maretaningtias Dwi Ariani, Dr. Udijanto Tedjosongko, Dr. Irma Josefina Savitri, Dr. Mega Moeharyono Putri, all Professors and lecturers in Faculty of Dental Medicine Airlangga University for all their care and support during this program.

My sincere gratitude goes to my fellow Hirodai survivors, Pham Vinh Binh and Mao Chhy Eng, for taking this journey together. I am so grateful to have both of you as my classmates. I really do not know what would I do without them.

I would like to acknowledge all my Japanese classmates for always be there when we need help regarding school or any daily activities in Japan. Thank you for befriending us and taking us to a lot of places in Japan. Thank you for teaching us Japanese cultures and language. My life in Hiroshima would not be as fun if it is not for you guys. I am forever grateful to know you and be in the same class for these four years.

I would also like to thank my senpai, kouhai, all international students and all Indonesians in Hiroshima for making my life in Hiroshima fun and enjoyable. Thank you for the all the beautiful memories and I hope our paths will cross again in the future.

Last but not least, the most sincere gratitude goes to my family, especially my parents, my grandparents, my sisters and my friends for the endless support throughout the years. Without these people, I will not be able to go this far and be where I am right now.

Hiroshima, August 2020
