

**TABLE OF CONTENTS**

|   |      |
|---|------|
| <b>COVER</b> .....                                | i    |
| <b>DEGREE REQUIREMENT</b> .....                   | ii   |
| <b>APPROVAL SHEET</b> .....                       | iii  |
| <b>STATEMENT OF ORIGINALITY</b> .....             | iv   |
| <b>ACKNOWLEDGEMENTS</b> .....                     | v    |
| <b>SUMMARY</b> .....                              | vi   |
| <b>ABSTRACT</b> .....                             | vii  |
| <b>TABLE OF CONTENTS</b> .....                    | viii |
| <b>LIST OF FIGURES</b> .....                      | ix   |
| <b>LIST OF TABLES</b> .....                       | x    |
| <br>  |      |
| <b>CHAPTER I INTRODUCTION</b>                     |      |
| 1.1 Background .....                              | 1    |
| 1.2 Research Question.....                        | 2    |
| 1.3 Aim of The Research .....                     | 3    |
| <br>  |      |
| <b>CHAPTER II LITERATURE REVIEW</b>               |      |
| 2.1 Definition of ANN.....                        | 4    |
| 2.2 Architecture of ANN .....                     | 5    |
| 2.3 Components of ANN.....                        | 10   |
| 2.4 Training Methods of ANN .....                 | 18   |
| 2.5 ANN Backpropagation .....                     | 19   |
| <br>  |      |
| <b>CHAPTER III CONCEPTUAL FRAME</b>               |      |
| 3.1 Conceptual Framework .....                    | 27   |
| 3.2 Search Strategy.....                          | 27   |
| 3.3 Study Selection .....                         | 28   |
| 3.4 Data Extraction.....                          | 28   |
| 3.5 Data Analysis .....                           | 28   |
| <br>  |      |
| <b>CHAPTER IV RESEARCH METHOD</b> .....           | 30   |
| <br>  |      |
| <b>CHAPTER V RESULTS and DISCUSSION</b> .....     | 33   |
| <br>  |      |
| <b>CHAPTER VI CONCLUSION and SUGGESTION</b> ..... | 49   |
| <br>  |      |
| <b>REFERENCES</b> .....                           | 50   |

**LIST OF FIGURES**

Figure 2.1 Graph of the effect of hidden layer size on network generalization..... 7

Figure 2.2 Example of single-layer ANN ..... 9

Figure 2.3 Example of multi-layer ANN ..... 10

Figure 2.4 Example of competitive-layer ANN ..... 10

Figure 2.5 Structure of biological nerve cell..... 11

Figure 2.6 Structure of ANN..... 11

Figure 2.7 Derivation graph of sigmoid activation function..... 12

Figure 2.8. Unipolar hard limit graph function ..... 13

Figure 2.9 Unipolar threshold graph function..... 14

Figure 2.10 Bipolar hard limit graph function ..... 14

Figure 2.11 Bipolar threshold graph function ..... 14

Figure 2.12 Linear graph function ..... 15

Figure 2.13 Binary sigmoid graph function ..... 15

Figure 2.14 Bipolar sigmoid graph function ..... 15

Figure 2.15 Network performance of training and validation data sets ..... 17

Figure 3.1 Conceptual framework for this review ..... 27

Figure 5.1 ROC curves for predicting outcome of chronic subdural hematoma following surgery using ANN and regression model ..... 41

Figure 5.2 ROC curves for predicting the readmission risk of stroke patients at 3-6 months follow up after discharged using ANN and logistic regression ..... 43

Figure 5.3 Calibration curves for predicting the readmission risk of stroke patients at 3-6 months follow up after discharged using neural network and logistic regression ..... 43

**LIST OF TABLES**

|   |    |
|---|----|
| Table 2.1 Variables and its descriptions of backpropagation neural network .....              | 26 |
| Table 4.1 List of selected articles.....  | 30 |
| Table 5.1 Characteristic of ten studies presenting medical disease prediction<br>models ..... | 46 |
| Table 5.2 Overview of methodological aspects of ten prediction models .....                   | 47 |
