

# Submission

The screenshot shows a Gmail interface with a search bar containing "research@f1000.com". The email being viewed is titled "Your submission to F1000Research via BioRxiv" and is dated Tuesday, January 19, 2021, at 5:43 PM. The sender is F1000Research. The email content includes a thank you message, a request to check familiarity with the publishing model, and instructions for continuing the submission. It mentions a transparent and post-publication peer review process and provides contact information for Charlie Vickers, Senior Editorial Assistant.

**Subject:** Your submission to F1000Research via BioRxiv

**From:** F1000Research <research@f1000.com>

**To:** me

**Date:** Tue, Jan 19, 2021, 5:43 PM

Dear Cindy

Thank you for your submission to F1000Research via BioRxiv.

Before we proceed with your submission, may we please check that you are familiar with our publishing model? We have a **transparent and post-publication peer review process**, where your article is published after our in-house editorial check and peer review is after publication. Peer review is led by the authors, and directly determines whether the articles are indexed with sites such as PubMed and Scopus. For more information, please visit our [How it Works](#) page.

If you wish to continue with your submission, please let us know whether it will be yourself or another author who will be responsible for liaising with our editorial team and leading the peer review, and provide us with a .doc or .rtf copy of your manuscript. We will then send you a link with which you can complete your submission – the link will only be accessible to an account associated with the email address you provide us with.

We look forward to working with you – if you have any questions please don't hesitate to ask.

Best regards,

Charlie

Charlie Vickers  
Senior Editorial Assistant

The screenshot shows a Gmail interface with a search bar containing "research@f1000.com". The email being viewed is titled "Your article has been submitted 51040" and is dated Friday, January 22, 2021, at 6:56 PM. The sender is research@f1000.com. The email content includes a message from Ricardo Adrian Nugraha regarding the submission of a manuscript titled "Atopic Biomarker Changes after Exposure to Porphyromonas gingivalis Lipopolysaccharide: A Small Experimental Study in Wistar Rat". It provides details about the funders, the peer review process, and instructions for connecting an ORCID ID.

**Subject:** Your article has been submitted 51040

**From:** research@f1000.com

**To:** me

**Date:** Fri, Jan 22, 2021, 6:56 PM

Dear Sindy Comelia

Ricardo Adrian Nugraha has submitted this manuscript:

**Atopic Biomarker Changes after Exposure to *Porphyromonas gingivalis* Lipopolysaccharide: A Small Experimental Study in Wistar Rat**  
Sindy Comelia Nelwan *et al.* with Sindy Comelia Nelwan as the corresponding author(s).

**Funders:** you have stated during the submission process that this work has been funded by: Universitas Airlangga College of Dentistry (08/IX/2019/FKG.UA)

**Before publishing the article:** we will be in touch with Ricardo Adrian Nugraha as soon as possible with any issues that need addressing and ask them for reviewer suggestions. They will then receive a final proof of the article for approval, prior to publication. At that stage, the peer review process will begin, in accordance with our [publishing model](#).

**After publication:** to ensure you receive proper recognition for your professional activities, you can connect your ORCID ID to F1000Research so that all your F1000Research work is added to your account automatically once it is published. Details on how to do this will be sent in an email when the article is published.

All future correspondence about this submission will be sent to Ricardo Adrian Nugraha only. If you have not agreed to this submission and your inclusion as an author of this article, please contact us immediately quoting the article number: 51040.

Kind regards

The F1000Research Team

**Press releasing articles:** Please avoid promoting articles in the media until the article has passed the [open peer review process](#). Promotion on social media is encouraged once the article has been published; please ensure the full citation is included, as this contains the peer review status. F1000Research should be cited as the source of these articles with a link to the article.
