Dear Editor IJPHRD,

Thank you for accepting my manuscript (Arief Hargono et al) for fast track (April 2019). We've really appreciated it. I've heard from my colleague that there will be pre-release to ask for authors about article revision. Regarding that please allow permission to change the title of my article from:

"Information system model of community health surveillance in school-age children"

become

"System analysis of public health surveillance in school-age children"

The reason for this change is more in line with the objectives and the content of the research. We apologize for this inconvenience. Thank you for your attention and cooperation.

Best regards,

Arief Hargono
