

[SLJCH] Submission Acknowledgement - "Clinical Profile of Children with Rheumatic Heart Disease In Indonesia"

Dari: Sri Lanka Journal of Child Health (no-reply@ubiquitypartnernetnetwork.com)

Kepada: alit_tusari@yahoo.com

Tanggal: Jumat, 3 April 2020 19.30 WIB

Dear I Ketut Alit Utamayasa,

Thank you for submitting the manuscript, "Clinical Profile of Children with Rheumatic Heart Disease In Indonesia" to Sri Lanka Journal of Child Health. With our online journal management system, you will be able to track its progress through the editorial process by logging in to the journal [web site](#).

Your submission will now be considered by our Editors. Research papers deemed appropriate for the journal will proceed directly to peer review, which generally take around 8 weeks to be completed. Non-research papers will undergo a full Editorial review process, which will take 2-3 weeks. Following the completion of the review, you will be contacted by journal staff with review feedback.

Thank you for considering this journal as a venue for your work. Please get in touch should you have any questions regarding your paper.

Kind regards,

-- Sri Lanka Journal of Child Health editorial team.

Clinical Profile of Children with Rheumatic Heart Disease In Indonesia

Dear Ketut Utamayasa

Ithenticate shows a similarity index of 57% which is extremely high. I have revised the article deleting some portions and re-wording others so as to reduce the similarity index to more acceptable proportions. I will be giving the revised version to the reviewers at the next Editorial Board Meeting on 24th April. The revised version and ithenticate are attached.

Regards

Dr. G N Lucas

Joint Editor SLJCH
