Plagiarism: WARNING

Plagiarism means "Use or close imitation of the language and thoughts of another author and the representation of them as one's own original work."

This has been noticed by the editorial team of **RASĀYAN J. Chem.** that, authors are simply copying (as it is) scientific data, tables, figures etc. directly from the other published papers, without proper written permissions from the original authors/publishers. It is an intellectual theft and an awful practice in scientific writings.

Therefore, I request to the all our contributor(s), please submit your original work only and adopt the 'honesty' to design the manuscript.

In unavoidable circumstances, take prior written permission from the original author/publisher and provide us the letter along with the manuscript at the time of submission.

If anybody found involved in such Plagiarism issues, he/she will face the consequences. **RASĀYAN J. Chem.** will not be responsible for any legal action against them.

Important: Provide this **Letter of Original Work** signed by the corresponding author, otherwise **the manuscript will not be processed for the final acceptance.**
