Dear Prof. Yi Weljjan,

Please let me introduce my self. I'm Melanny from Airlangga University Indonesia. I've submitted my manuscript a couple of weeks ago through your website's portal, with the title *N-(2-(2-Benzidenehydrazinecarbonyl)phenyl)benzamide: Synthesis, Cytotoxic, Antioxidant Activity and Molecular Docking Studies*. Then I realize that I need to register as an author before submitting the paper. Please give me a suggestion, what I should do? Do I need to resubmit my manuscript through my account on the journal's website? And the second question is how long the reviewing process takes?

I'm looking forward to hearing from you. Thank you very much.

Best regards,
