Dear **Dr. Rahkman Ardi**

We have finished doing review and decided about your manuscript entitled **[ Partisan Selective Exposure to False News Contents ]** which submitted on Makara Human Behavior Studies in Asia (Makara Hubs-Asia).

We have decided that your manuscript **Need to be Revised**

We also send you review result from reviewers. Here detail review result:

Notes from Editor:

Please make the minor revisions requested by the reviewers, and we will accept the manuscript.

Reviewer : 1  
Date Review : 31 Jan 2019 - 09:45

1. Research Question(s): Is the research question(s) clear, based current theories and supported by previous studies?  
**Assesment: 4**

**Specific suggestions:**

1. Introduction: need to consider some of these articles as a references. The readers can understand the political context that they want to discuss further. Setjadjadi, C. (2017). *Ahokâ€™s Downfall and the Rise of Islamist Populism in Indonesia*. ISEAS Perspective, 38. Slater, D., & Arugay, A. A. (2018). Polarizing figures: Executive power and institutional conflict in Asian democracies. *American Behavioral Scientist*, 62(1), 92-106. Tyson, A., & Purnomo, B. (2017). President Jokowi and the 2014 Obor Rakyat controversy in Indonesia. *Critical Asian Studies*, 49(1), 117-136.

2. Methods: Are the research design, measurement quality, and data analyses adequately described?  
**Assesment: 4**

**Specific suggestions:**

1. Methods & Analysis: It is better to include confounding factors which aim to have a solid results of the threat of *omitted variable bias* caused by internal (endogenous) factors attached to each supporter. For this reason, the appropriate statistical analysis uses difference in difference (DID) estimation.

3. Quality of writing: Is the paper coherently and systematically written?  
**Assesment: 5**

**Specific suggestions:**

4. Format of Table / Figure: Is the table / figure well pictured? In accordance with APA standard?  
**Assesment: 5**

**Specific suggestions:**

5. Referencing style: Has the manuscript employ enough national and/or international journals as its references and the references are used in accordance with APA standard?

**Assesment: 5**

**Specific suggestions:**

**A. Contributions & Quality**

- Makes major contributions to the advancement of the subject
- Sound, original, and of interest
- Sound, original, but not suitable for Makara Human Behaviour Studies in Asia
- Does not add to knowledge of the subject
- Contains fundamental errors or faulty judgements
- Match between title, abstract, data and conclusions

**B. Referee's Recommendation**

- Acceptable in present form
- Acceptable with grammatical revision
- Acceptable with minor technical revision
- Acceptable with major technical revision
- Reject
- Check here if you want to see the Revised Version
- Check here if you made annotation on the manuscript

**Other Comment:**

Interesting article and understudied topics. This is in line with developments in Indonesia's current political problems. The idea of the writer comparing between the two supporting camps is quite reasonable. This article is excellent and would enrich the reference, not only in studies in psychology but also for political science. Abstract: Need to add sentences about research questions that need to be elaborated and why are they important?

Decision : **Accept as is**
