# ACKNOWLEDGEMENTS

Foremost, I would like to express my sincere gratitude to my thesis advisor Prof. Diah Ariani Arimbi, for the continuous support of my Undergraduate study and research, for her patience, guidance, honesty, and immense knowledge. Her guidance helped me in all the time of research and writing of this thesis. Besides my advisor, I would also like to thank my academic advisor Mr. Jurianto, for his perpetual support and assistance during the time of my study. I would also like to thank Mr. Prananta for giving the best lectures during my study, and without him I would not have discovered the method of research that I used in this study. I thank my fellow students in the "Alih Jenis" bachelor program, for the stimulating discussions, for the sleepless nights we were working together before deadlines, and for all the fun we have had in the last two and a half years. Besides that, I also thank all of my friends and best friends for being there when I need them. Last but not the least, I would like to thank my family: my mother Tri Sungging Wibawanti, for giving me the much needed financial support, and my aunts and uncles who helped her along the way.
