## ACKNOWLEDGEMENTS

First of all, I would like to express my greatest gratitude to Allah SWT for giving me strength and ease while working on this thesis despite some obstacle I faced in the process. For finally being able to finish this is such a big accomplishment for me. Still, the completion of this thesis would not have been possible without the generous support of many people, some of whom I would like to thank here.

Before all else, I would like to say many thanks to Dr. Moses Glorino Rumambo Pandin M.Si., M.Psi., M.Phil., Psi. as my thesis advisor. I cannot describe how grateful I am for his generosity to spare his time and patiently assist me with his insightful suggestions at every stage of writing this thesis. In addition, I would like to thank Lastiko Endi Rahmanty, S.S., M.Hum as my academic advisor for helping me with my academic plan so now I can finish my study on time.

Next, my warmest and sincerest thanks go to my parents who have worked so hard to raise me to be the person I am today. I could not have reached this point if it was not for their endless support and prayers for my success, and I am eternally grateful for that. The same goes for my sister who is also my biggest mental support, thanks for never getting tired of listening to my petty complaints and always encourages me to get back up on my feet during difficult times.

I also want to show my appreciation to my friends in English Department 2017, especially these five below for keeping me company since the beginning and willing to share the ups and downs after all these years. Riska, whom I have known the longest; Amirah, Nabilah, and Beki, thank you for all the laughter and happiness you spread. I wish you all the best of luck. Last but not least, big thanks to my gaming buddies, Linon and Gerbera for keeping me sane with their hilarious antics.
