Dear Miss Maria Gani,

The following request has been successfully submitted to our Editorial Team. We will reply you shortly.

Your request:

**Personal Information:**

Miss

Maria

Gani

**Paper Information:**

The characterization of bovine bone-derived hydroxyapatite isolated using novel non-hazardous method

Journal of Biomimetics, Biomaterials and Biomedical Engineering

If you have any questions please let us know.

Best regards, Scientific.Net Editorial Team

## 2. Lampiran Review's Report: 'The cheraderization of bovine bone-derived hydroxyapatite isolated using hazardous methods

**Reviewer's Report**

Reviewer #1: 2020-04-03 01:37      Approved: 2020-04-03 14:08

Title: **JBBBE**  
Paper: **The Characterization of Bovine Bone-Derived Hydroxyapatite Isolated Using Novel Non-Hazardous Method**  
Author(s): **Aniek Budiati, Samirah Samirah, Maria Gani, Wenny Putri Nilamsari, Chrismanwan Ardianto**

**A. Recommendation (Please check appropriate option)**

- Publish as is
- Publish after optional minor revision
- Publish after mandatory minor/major revision
- Reject

**B. Checklist**

1. Is the manuscript of high scientific quality?	Yes
2. Is the manuscript free from errors?	Yes
3. Is the paper well organized?	Yes

**B. Checklist**

1. Is the manuscript of high scientific quality?	Yes
2. Is the manuscript free from errors?	Yes
3. Is the paper well organized?	Yes
4. Is the title appropriate?	Yes
5. Are the references to related work adequate?	Yes
6. Is the English satisfactory?	Yes
7. Are the figures clear?	Yes
8. Are the tables clear?	Yes

**C. Remarks**

Dear Principal Editor. I am pleased to give my approval of the paper entitled: The Characterization of Bovine Bone-Derived Hydroxyapatite Isolated Using Novel Non-Hazardous Method for its publication in Journal of Biomimetics, Biomaterials and Biomedical Engineering . This work resume great value information related to the development and characterization of hidroxiapatite based on bovine bone calcination with applications in bone tissue regeneration. The information contained in this paper can help us to expand the applications and perspectives for improving the properties that nowadays reduce the application field of these materials. This paper will help us also for obtaining a summary record to compare results obtained in the laboratory. Thank you very much for your invitation as a reviewer of this paper, I am very proud to be taken into account for collaboration in a journal so prestigious and

## Your paper has been accepted for publication in JBBBE

---

JBBBE <9780000017284@scientific.net>

13 April 2020 pukul 15.11

Balas Ke: JBBBE <9780000017284@scientific.net>

Kepada: Miss Maria Gani <maria.apriliani.gani-2019@ff.unair.ac.id>

Dear Miss Maria Gani,

Your article «The Characterization of Bovine Bone-Derived Hydroxyapatite Isolated Using Novel Non-Hazardous Method» has been preliminary accepted for publication in the «JBBBE». Although no further action is required, you can verify the status of your article by logging in to the publisher's website :

Please go to <https://www.scientific.net> and log in using the credentials below.

Username : [maria.apriliani.gani-2019@ff.unair.ac.id](mailto:maria.apriliani.gani-2019@ff.unair.ac.id)

Password : RmyQJ384

After you log in please select « Author » role near the top of the screen.

If any further changes in your article become necessary you must notify and obtain a permission from an Editor via E-mail PRIOR to uploading a new version.

The final acceptance notice you will receive after publisher's internal check. Thank you very much.

Best regards,  
Editor Assistant
