Comments to the author

Reviewer 2: Thank you for the opportunity to read your interesting article. Please find here some points to ponder to further strengthen your paper:

1. Abstract - yours is pretty clear and concise, however, if you may add more details of your findings and the implication of study since this will be the first impression of the whole paper to the reader.
2. Some abbreviations, noticed to be in Bahasa Indonesia and in my opinion, they are quite confusing. Consider to insert table to make them easier to be digested by readers.
3. If possible, please add more recent literatures or references to make it better for publishing.
4. Analysis part was sound and perhaps you can elaborate more on the discussion of findings and conclusion, to make the paper more interesting.

All the best and hope the points can assist you in whatever ways.

Please in addition to the reviewers' comments, please address the following issues:

1. Offer a point by point response to each of the reviewers comments and suggestions as to what you have done.
2. Highlight all changes that you make in the colour yellow in the manuscript.
3. In order to build on this line of research in the journal, please cite relevant papers published in this field in this journal and highlight them in the colour yellow in the reference list.
4. Please, there are several typos, kindly consider hiring a professional proof-reader to proof-read the paper before resubmitting.

I look forward to receiving the revised paper.

Best regards
