Dear Editorial Office
The Indian Veterinary Journal

Thank you very much for your prompt response.

We would like to apologize from the deepest of our heart for this inconvenience and confusion we caused you.

In this occasion we would like to ask for your help to consider the last author's name for this one case since this is also our fault.

We hope the last author's name Sukree Hajisamae could be changed to Pranpansa Srisapoome.

For your consideration, we would like to inform you the chronology:

1. When we were sending manuscript 406 (submitted 12 November 2018), we prepared other manuscripts to be sent to some journals, including IVJ. Thus may be the cause of confusion
2. We received the acknowledgement letter of 406/18 at 27 November 2018
3. We checked the acknowledgement letter and realize that there was mistake in the name of last author. It happened because of our carelessness and was purely our fault
4. In the same date 27 November 2018, we sent a confirmation email that the last name was incorrect and requested for the name changing

Certainly this is a mistake that could be prevented, and we learned a lot from this case to be much more careful in the future to prevent this from repeating.

It would be a great help for us if you can consider this case. Yet, we will fully respect your decision regarding not accepting changes in author names after the manuscript is accepted if it is already final.

Thank you very much for your attention.

Sincerely,

Dr. Gunanti Mahasri
