International Journal of Research in Advent Technology (IJRAT)

Send paper at editor@ijrat.org, editor.ijrat@gmail.com

We will notify you soon with the review report if your paper is accepted by the reviewers. Send now!

Papers Submission Open for Volume-10 Issue-1, January 2022 | Last Date of Paper Submission is February 10, 2022

Published By: MG Aricent Educational Foundation

International Journal of Research in Advent Technology (IJRAT) is having ISSN 2321-9637 (online), monthly international journal, being published in the months of January, February, March, April, May, June, July, August, September, October, November, December since year 2013.

It is academic, online, open access, peer reviewed international journal. It aims to publish original, theoretical and practical advances in Computer Science & Engineering, Information Technology, Electrical and Electronics Engineering, Electronics and Telecommunication, Mechanical Engineering, Civil Engineering, Textile Engineering and all interdisciplinary streams of Engineering Sciences. All submitted papers will be reviewed by the board of committee of IJRAT.

The aim of the journal is to devote to publish scholarly empirical and theoretical research & review articles, which will offer its authors and readers a combination of academic rigor and professional development. IJRAT is steered by distinguished editorial/advisory Board members, Researchers and Academicians from many well-known universities, colleges, and corporate world.

Papers for the regular issues of the journal can be submitted, round the year, electronically at editor@ijrat.org , editor.ijrat@gmail.com. After the final acceptance of the paper, based upon the detailed review process, the paper will immediately be published online. However, assignment of the paper to an specific Volume / Issue of the Journal will be taken up by the Editorial Board later; and the author will be intimated accordingly. For Theme Based Special Issues, time bound Special Call for Papers will be announced and the same will be applicable for that specific issue only.

EDITORIAL BOARD

Editor-In-Chief

Dr. Mangesh M. Ghonge
Sandip Institute of Technology & Research Centre, Nashik (MS), India

Associated Editor-In-Chief

Dr. Pradeep M. Jawandhiya
Principal, Pankaj Laddhad Institute of Technology and Management Studies, Buldhana (MS), India

Dr. Nitin S. Goje
Professor, Webster University, Tashkent, Uzbekistan

Executive Editor

Mrs. Sneha M. Dakhore
Director, MG Aricent Educational Foundation, Yavatmal, India

Editorial Members

Dr. M. Cuneyt Bagdatli
Associate Professor, Nevsehir Haci Bektas Veli University, Faculty of Engineering and Architecture, Department of Biosyst, Turkey

Dr. G. Nalankilli
Professor, Textile Chemistry Research and Innovation Centre, Ethiopian Institute of Textile & Fashion Technology, Ethiopia

Dr. Ho Soon Min
Associate Professor, INTI International University, Jln BBN 12/1, Bandar Baru Nilai, 71800 Negeri Sembilan, Malaysia

Dr. Girma Kebebew Tufa
Lecturer, College Of Engineering and Technology, Wollega University, Ethiopia

Dr. Yasin Polat
Academician in Science Technology Application Research Center Nevşehir Hacı Bektaş Veli University, Turkey

Dr. Mehran Heydari
Adjunct Professor, University Of Alberta, Canada

Dr. Alireza Valipour Baboli
Professor, Iran Technical and Professional University, Iran

Mr. Vineela Parvathaneni
Department of Pharmaceutical Science, St John's University, New York

Dr. Djordje Vukelic
University of Novi Sad, Faculty of Technical Sciences, Serbia

Dr. Yousef Farhaoui
Department of Computer Science, Faculty of sciences and Technic, Moulay Ismail University Errachidia, Morocco

Dr. Mohammed Issa Ala
Arab Open University, Jordan, Amman.

Mr. Moges Dessale Alemu
Head, Department of Agricultural Economics, Wollo University, Dessie, Ethiopia

Dr. Chandra Sekhar Rout
Indian Institute of Technology, Bhubaneswar, India.

Dr. Randhir Singh
Indian Institute of Technology, Bhubaneswar, India.

Dr. Tapas Chatterjee
Indian Institute of Technology, Ropar, India.

Dr. Vandana Sharma
Indian Institute of Technology, Hyderabad, India.

Prof. Javagal K. Sridhar
Indian Institute of Technology, Ropar, India.

Dr. Prof. Arup Ratan Bhowmik
National Institute of Technology, Agartala, India.

Dr. Subhadeep Bhattacharjee
National Institute of Technology, Agartala, India.

Dr. P. S. Reddy
National Institute of Technology, Goa, India.

Prof. Hemant Sharma
Indian Institute of Technology, Ropar, India.

Prof. Saptadip Saha
National Institute of Technology, Agartala, India.

Prof. Debashis Sanyal
National Institute of Technology, Raipur, India.

Prof. Tannistha Pal
National Institute of Technology, Agartala, India.

Prof. Hrituparna Paul
National Institute of Technology, Agartala, India.

Dr. Tarun Chopra
Dept. of Electrical Engineering, Govt. Engineering College, Bikaner, India.

Dr. Arjun P Ghatule
Sinhgad Institute of Computer Sciences (SICS), Korti, Pandharpur, India.

Dr. Dhanesh Garg
Thapar University, Patiala, India.

Dr. Rajni Ratti
MCM DAV College, Chandigarh, India.

Dr. Chetankumar M. Sedani
Principal, Padmabhushan Vasantdada Patil Institute Of Technology, Pune, India.

Dr. Milind V. Sarode
Government Polytechnic College, Yavatmal, Maharashtra, India

Dr. Rohit Manjule
Dhamangaon Education Societys College of Engineering & Technology, Dhamangaon, Maharashtra, India

Dr. Rajkishor M. Tugnayat
Principal, SSP Agnihotri College of Engineering, Wardha, India.

Dr. Arvind Kumar Sinha
Department of Mathematics, National Institute of Technology, Raipur, India.

Dr. Prashant Jindal
University Institute of Engineering & Technology(UJET.), Panjab University, Chandigarh, India.

Dr. Arvind Singh Tomar
Drainage Engineering, College of Technology, G.B. Pant Univ. of Agric. Technology, Pantnagar, India.

Dr. Santosh Kumar Behera
Professor, Department of Education, Sidho-Kanho-Birsha University, Ranchi, India.

Dr. Sunil Pandurangrao Jagtap
Assistant Professor (Engg. Physics), RMD Sinhgad School of Engineering, Pune, India.

Dr. Pankaj Bhambr
Nanak Dev Engineering College, Ludhiana, India.

Dr. Sabyasachi Pramanik
Haldia Institute of Technology: Haldia, West Bengal, India.

Dr. Amol D. Potgantwar
Sandip Institute of Technology & Research Centre, Mahiravani, Nashik, India.

Dr. Prashant Pingale
Gokhale Education Society's Sir Dr. M. S. Gosavi College of Pharmaceutical Education and Research, Nashik, India.

Dr. Jimmy Singla
School of Computer Science & Engineering, Lovely Professional University, Punjab, India.

Dr. A.Manickam
K.N.Govt.Arts college for women Bharathidasan University, Thanjavur, Tamilnadu, India.

Prof. Nitinchandra Rameshchandra Patel
Assistant Professor, Dept. of Mechanical Engineering, G.H.Patel College of Engineering & Technology, Gujrat, India.

Dr. R. Saravanan
Associate Professor, Moradabad Institute of Technology, Moradabad, India.

Dr. Priyanka Singh
Assistant Professor (III), Department of Civil Engineering, Amity University, Noida, Uttar Pradesh, India

Dr. Pintu Kumar Maji
Assistant Professor, Education, Sarsuna College under University of Calcutta, Kolkata, West Bengal, India

Dr. T.Phani Madhavi,
Dean (Research), Professor & HOD(Civil) at Nalanda Institute of Engineering & Technology, Guntur District, Andhra Pradesh, India

Dr. Dhruvil N. Brahmabhatt
Assistant Professor, L.J. Institute of Applied Sciences, Ahmedabad, India.

Dr. Sankit Ramkrishna Kassa
Associate Professor in Electronics Engineering Department at Usha Mittal Institute of Technology, Mumbai, India.

Dr. B. Bazeer Ahamed
Associate Professor Department of Computer Science & Engineering Balaji Institute of Technology and Science Narasampet, Warangal, Telangana, India

Dr. Niraj Kumar C. Mehta
Vadodara Institute of Engineering, Vadodara, Gujarat, India

Dr. Sachin Nagorao Waghmare
Assistant Professor, Mechanical Engineering Department, Rajendra Mane College of Engineering & Technology, Ambav (Devrukh), Tal. Sangmeshwar, Dist. Ratnagiri, Maharashtra, India.

Dr. S.R. Boselin Prabhu
Assistant Professor, SVS College of Engineering, Coimbatore, India

Dr. Sunil Kumar Jangir
Associate Professor, Head- Department of Information Technology, JECRC University, Jaipur, India.

Dr. Purushottam Rohidas Patil
Associate Professor, Computer Engineering Department PSGVP Mandal's D.N.Patel College of Engineering, Shahada, India.

Dr. V. Tamizhazhagan
Department of Zoology, Annamalai University, Tamilnadu, India

Dr. Christo Ananth
Associate Professor, Department of Electronics & Communication Engineering, Francis Xavier Engineering College, Tirunelveli, India.

Dr. V.S. Hariharan
Principal, Balaji Institute of Technology & Science, Narsampet, India.

Dr. Prashant Kumar Shukla
Associate Professor, Sagar Institute of Research and Technology, Bhopal, India.

Dr. S. Sarath Chandra
Associate Professor, Dept. of Electronics & Communication Engineering, QIS College of Engineering & Technology, Andhra Pradesh, India.

Dr. Kamalini Solanki
Assistant Professor, Panul University, Waghodia, Gujarat, India.

Dr. N. Kanthavelkumaran
Professor, Department of Mechanical engineering, Ponjesly College of Engineering, Alamparai, Nagercoil, Tamilnadu, India.

Indrasen Poola
Data Scientist & Artificial Intelligence - Industry Consultant & Professional Researcher, India.

Dr. D. Moganraj
Lecturer in J.A. Institute of Engineering and Technology at Koyembedu, Chennai, Tamilnadu, India.

Dr. Pankaj Bhambr
Assistant Professor, Information Technology Department of Guru Nanak Dev Engineering College, Ludhiana, India.

Dr. M. Ramesh Kumar
Associate Professor, VSB College of Engineering Technical Campus, Coimbatore, India.

Dr. Sumit Kumar Gupta
Dean, Faculty of Science, Department of Physics, Parishkar College of Global Excellence, Jaipur, India.

Dr. H. R. Bhapkar
Associate Professor in Mathematics, STES's Smt. Kashibai Navale College of Engineering, Vadgaon, Pune-41, Maharashtra, India.

Dr. Gummadi Jose Moses
HOD & Associate Professor in CSE, Kakinada Institute of Technological Sciences, E.G.Dt A.P, India.

Dr. T. Amaranatha Reddy
Associate Professor in Aditya College of Engineering, Madanapalle, India.

Dr. K. Nirmal Raja
Professor, Mangalam college of engineering, Ettumanoor, Kottayam, India.

Dr. Ganapatikrishna P. Hegde
Assistant Professor in SDMIT, Ujire, India.

Dr. J. Srinivas
Associate professor & HOD in Adams Engineering college, Khammam, Telangana, India.

Prof. Prateek Nigam
Assistant Professor, Electrical & Electronics Engineering (EEE), Bansal College of Engineering, Mandideep, India.

Prof. K. Muthuvel
Assistant Professor, Amity University, Gwalior, Madhya Pradesh, India.

Dr. Lakhvinder Singh
Assistant Professor, Department of Tourism Management, Dr.B.R. Ambedkar Government College, Kaithal, India.

Dr. Ravichandra Kulkarni
Associate Professor, MIT Mysore, India.

Dr. Abhishek Kumar Tripathi
Department of Mining Engineering, Aditya Engineering College (A), Surampalem, Andhra Pradesh, India

Dr. Anil Dube
Professor, Department of Mechanical Engineering, Sandip Institute of Engineering and Management, Nashik, Maharashtra, India

DR.K.Kalaiaarasi
Assistant Professor, Bharathidasan University, Tiruchirappalli, Tamilnadu, India

Prof. Babahaseb Bhagwat Chavan
Head, Department of Pharmaceutical Chemistry, JSPM's Jayawantrao Sawant College of Pharmacy & Research, Pune, India

Dr. Ramachandra C. G
Associate Professor, Department of Mechanical Engineering, School of Engineering, Presidency University, Bengaluru-560064, Karnataka, India

Dr. Bala Murugan D
Assistant Professor, PSN College of Engineering and Technology, Tamilnadu, India

Prof. Babahaseb Bhagwat Chavan
Head, Department of Pharmaceutical Chemistry, JSPM's Jayawantrao Sawant College of Pharmacy & Research, Pune, India

Dr. A. C. Deepa
Assistant Professor, Dr. N.G.P. Arts and Science College, Coimbatore, India

Dr. Tapas Pal
Asst. Professor, Dept. of Geography, Raiganj University, Raiganj, Uttar Dinajpur, West Bengal, India

Dr. Rajesh A S
Assistant Professor in the Department of Mechanical Engineering at MIT Mysore, India

Dr. Raffi Mohammed
Associate Professor, Department of Mechanical Engineering, Ramachandra College of Engineering, West Godavari, Andhra Pradesh, India

Dr. M. Raghavender Sharma
Assistant professor, Department of Statistics University College of Science, Osmania University, Hyderabad, Telangana, India.

Dr. Nayan Roy
Assistant Professor, Department of Zoology, M.U.C. Women's, Burdwan, West Bengal, India

Dr. Arvind Prasad Dwivedi
Assistant Professor, Dept. of Chemistry, Govt. Sanjay Gandhi Smrati, College, Sidhi (M.P.), India

Dr. P. Jayasubramanian
Professor, Department of Commerce, Dr.N.G.P. Arts and Science College, Coimbatore, Tamilnadu, India

Prof. Mahaboob Hussain Shaik
Assistant Professor in Dept. of CSE, Vishnu Institute of Technology (Autonomous), Vishnupur, Bhimavaram, India

Prof. M.Premkumar
Assistant Professor, Konguadu College of Engineering and Technology, Tholurpatti, Tamil Nadu, India

Dr. R. Venkatesan
Assistant Professor, Department of Business Administration, Shanmuga Industries Arts and Science College, Tiruvannamalai, Tamil Nadu, India

Dr. Praveen Kumar Sharma
Associate Professor, Department of Chemistry, Lovely Professional University, Punjab, India

Dr. R. Arokia Paul Rajan
Associate Professor, Department of Computer Science, CHRIST (Deemed to be University), Bangalore, Karnataka, India

Prof. A.Sampath Dakshina Murthy
Assistant Professor, Vignan's Institute of Information Technology (A), Visakhapatnam, Andhra Pradesh, India

Dr. T. Selvankumar
Professor & Head, PG & Research Department of Biotechnology, Mahendra Arts & Science College, Kalippatti, Namakkal, Tamil Nadu, India

Dr. Upendra Nath Shukla
Assistant Professor, Amity Business School, Amity University Uttar Pradesh, Lucknow, India

Dr. A. Dinesh Kumar
Associate Professor, Department of Science & Humanities, Dhanalakshmi Srinivasan Engineering College, Perambalur, Tamilnadu, India

Dr. Ismath Shameem
Associate professor in Dept of Ilmu Qabala wa Amraze Niiswan (OBG) National Institute of Unani Medicine- Bangalore, Karnataka, India

Dr. S. R. Mishra
Associate Professor of Mathematics, Institute of Technical Education and Research, Siksha 'O' Anusandhan Deemed to be University, Bhubaneswar, India

Dr. Soumya Mukherjee
Assistant Professor, Department of Metallurgical Engineering, School of Mines & Metallurgy, Kazi Nazrul University Asansol, India

Dr. Seema Habib Isa
Assistant Professor, Department of Chemistry, G. M. Momin Women's College, Bhiwandi, India

Dr. Sandeep Kumar Kar
Assistant Professor, Cardiac Anaesthesiology Institute of Postgraduate Medical Education and Research, Cardiac Anaesthesiology, Kolkata, West Bengal, India

Dr. A. V. Raghu
Professor, Department of Chemistry, Centre for Emerging Technology, Jain University, Bengaluru, Karnataka, India

Dr. R. Samundeswari
A.P.C. Mahalaxmi College for Women, Thoothukudi, Tamil Nadu, India

Dr. Sachin Gupta
Assistant Professor, Department of Business Administration, Faculty of Commerce, Mohanlal Sukhadia University, Udaipur, Rajasthan, India

Abstract-The objectives is to assess the Geriatric Depression Scale (TGDS-15) when screening among elderly in community. A cross-sectional study of 450 elderly in Indonesia. All of respondent were given a GDS-15 questionnaire. The magnitude depression were calculated. A comparison between the groups demographic characteristics was carried out. Results were 25.8% of the elderly were found to have depression (cut-off score of ≥ 7). The mean that in community-based study confirms the high level of depressive. The range of GDS-15 score were severe variation (0-15). Results GDS-15 score (criteria cut-off point score depression in community is average >4.76) show that most of elderly in population is high risk 49.6%. Approximately increases 23.8%. An important determinant factors of depression symptoms in community. The GDS-15 scale was effective for diagnosis social-psychology problem specially elderly in the community. East Java, Indonesia must began to consider social problem relating to health for the elderly specially depressive symptoms.

Index Terms- Screening, depression, GDS-15, elderly, community
Continue

1. INTRODUCTION

People aged 65 and over continued to increase (table 1). This means East Java are aging. Changes in population structure toward the elderly are also affected by life expectancy at birth that continue to increase (Dinas Kesehatan Propinsi Jawa Timur, 2007; Dinas Kesehatan Propinsi Jawa Timur, 2009; Dinas Kesehatan Propinsi Jawa Timur, 2010; Badan Pusat Statistik Propinsi Jawa Timur, 2011; Dinas Kesehatan Propinsi Jawa Timur, 2012; Profil Kesehatan Propinsi Jawa Timur, 2011; Dinas Kesehatan Propinsi Jawa Timur, 2013; Profil Kesehatan Propinsi Jawa Timur, 2012; Dinas Kesehatan Propinsi Jawa Timur, 2014). This situation is certainly an effect on social welfare issues.

Table 1. Ageing population in East Java before and after the census in 2010

No	Category	Before			Census
		2006 ¹⁾	2008 ²⁾	2009 ³⁾	2010 ⁴⁾
1	Number population	37,102,673	37,436,164	37,746,485	37,476,757
2	Sex 65+				
	Male	1,188,297	1,479,121	1,169,907	1,122,917
	Female	1,345,235	1,173,689	1,515,557	1,527,496
3	Age 65+ (%)	5.92	7.08	7.11	7.07
4	Life expectancy -at birth	68.25 ⁴⁾	69.10 ⁴⁾	69.35 ⁴⁾	69.57

No	Category	After		
		2011 ⁵⁾	2012 ⁶⁾	2013 ⁷⁾

4	Life expectancy-at birth	69.81 ⁶⁾	70.09 ⁶⁾	NA

Sources: 1) Profil kesehatan propinsi Jawa Timur 2006; 2) Profil kesehatan propinsi Jawa Timur 2008; 3) Profil kesehatan propinsi Jawa Timur 2009; 4) Profil kependudukan hasil sensus penduduk Jawa Timur 2010; 5) Profil kesehatan propinsi Jawa Timur 2011; 6) Profil kesehatan propinsi Jawa Timur 2012; 7) Profil kesehatan propinsi Jawa Timur 2013; NA= not available

Furthermore, the first assumption, families with psycho-social problems are coming from vulnerable families. So based on Table 2. The identified that most of population 13.65% have psychological social problems. The second assumption, if the elderly are the most vulnerable groups, the psychological social problems of population aged 65 years and over as much as 6.79% will be at risk of developing depression. The third assumption, based on data showing that the number of violent acts experienced by the elderly varies widely (Badan Pusat Statistik

Propinsi Jawa Timur, 2013; Badan Pusat Statistik Propinsi Jawa Timur; 2013).

Table 2. Population and welfare in East Java, Indonesia 2012

GDS-15 score is an instrument that can be used to measure the level of depression in the elderly either in hospital or in the community. The GDS-15 score had a sensitivity of 92% and a specificity of 89% (Kurlowicz, 1999). Thus, this instruments can be used as a suitable tool for screening the level of depression in the elderly in the community.

Depression is a mental illness that is often found in the elderly with symptoms that are not common. It is estimated that nearly 40% of depression in the elderly is not detected (Nyoto, 2014). The research objective was to assess the level of depression in the elderly through community screening and comparing with magnitude of depression according to the characteristics of the elderly in society.

2. METHOD

This study was conducted in East Java and using a cross-sectional design. The study population of 450

elderly of 60 years of age or over. Each elderly was evaluated by the interviewer using the geriatric depression scale (GDS-15). The inclusion study were male or female, hearing and able to communicate. The study was approved by the ethics committee of the public health school of Airlangga University, and all elderly home Gave informed consent. Each respondent completed the Geriatric Depression Scale (GDS-15).

The Geriatric Depression Scale (GDS- 15) as developed by Yesavage (1983) (Yesavage et al., 1983). Instrument GDS-15 available on the internet at www.hartfordign.org so translate it from English into Indonesia (The Indonesian version of GDS-15). The criteria used to included the presence of depression is 7 (Nyoto, 2014).

Pearson's correlation was used to find validity instrument. Reliability refers to the internal consistency of a measure in a multiple-item construct, and assessed using Cronbach's alpha (cut-off point 0.7) (Cronbach, 1951). Chi-square analyses were performed on nominal categorical variables. Alpha level 0.05 was used for determining significance.

3. RESULTS

The GDS-15 was valid, it was found that Pearson's correlation items-total score was significant at the 0.05 level (p value <0.05). In terms of internal consistency, it was found that Cronbach's alpha for the entire questionnaire was good (Cronbach's alpha = 0.7). The overall mean score on the GDS-15 was 4.76 with standard deviation was 0,14 (range 0-15). A total of 450 elderly had depressive symptoms was 25.8% (with the edge presence of depression is 7). This mean that in community-based study confirms the high level of depressive.

Mean of age was 67.95 years (range 60-92 years). Almost 62.44% were 65 years old or more; 74% were female. Most of them (52.7%) reported elementary school and only 2.0% graduate. More than 50% widow and 1.5% had no partners. Most of them (53.1%) not job and 42.7% engaged in an occupation.

The demographic characteristics and their magnitude depression are given in table 3. According characteristic variable showed GDS-15 score were severe variation (range 0-15). An important determinant of depression symptoms.

Table 3. Demographic characteristic and GDS-15 score for elderly in community

No	Variable	Total n (%)	GDS-15 score	
			Mean (standard deviation)	Range
1	Age groups (years)			
	60-64	169 (37.6%)	4.29 (2.92)	0-15
	65-69	99 (22.0%)	4.50 (2.79)	0-12
	70-74	87 (19.3%)	5.28 (3.09)	0-13
	75-79	44 (9.8%)	5.27 (2.71)	0-12
	80-84	36 (8.0%)	5.97 (2.50)	0-11
	≥85	15 (3.3%)	4.40 (1.88)	0-8
2	Sex			
	Male	117 (26.0%)	4.35 (2.87)	0-13
	Female	333 (74.0%)	4.91 (2.88)	0-15
3	Education			
	Not educated	158 (35.1%)	5.56 (2.75)	0-12
	Elementary school	237 (52.7%)	4.55 (2.78)	0-15
	Yunior school	28 (6.2%)	4.25 (3.66)	0-13
	High school	18 (4.0%)	2.17 (1.76)	0-6
	Graduate	9 (2.0%)	3-11 (2.47)	0-7
4	Marital status			
	Married	199 (44.2%)	4.33 (2.79)	0-14
	Widow	244 (54.2%)	5.07 (2.91)	0-15
	Separated	7 (1.5%)	6.29 (2.81)	0-9
5	Job			
	Job	192 (42.7%)	4.35 (2.59)	0-15
	Pension	19 (4.2%)	2.63 (2.1)	0-6
	Not job	239 (53.1%)	5.48 (3.1)	0-14
	Total		4.76 (0.14)	0-15

Results GDS-15 score (criteria depression in community is average >4.76) show that most of them have depressive symptoms 223 (49.6%). This means depressive symptoms in elderly population is high risk. The characteristics demographic and depression showed that women have more problems than men ($X^2 = 5.57$; $p < 0.05$); level of education have an effect on depressive symptoms ($X^2 = 23.31$; $p < 0.05$); age groups had significant depressive symptoms ($X^2 = 15.57$; $p < 0.05$); marital status and job have different an effect significant on GDS-15 score in elderly population.

Table 4. GDS-15 across categories for characteristics demographic

No	Variable	GDS-15 score		Total (%)	X^2 (P value)
		≤4.76	>4.76		
1	Age groups (years)				$X^2 = 15.57$ ($p < 0.05$)
	60-64	101 (59.8%)	68 (40.2%)	169 (100%)	
	65-69	52 (52.5%)	47 (47.5%)	99 (100%)	
	70-74	37 (42.5%)	50 (57.5%)	87 (100%)	
	75-79	18 (40.9%)	26 (59.1%)	44 (100%)	
	80-84	11 (30.6%)	25 (69.4%)	36 (100%)	
	≥85	8 (53.3%)	7 (46.7%)	15 (100%)	
2	Sex				$X^2 = 5.57$ ($p < 0.05$)
	Male	70 (59.8%)	47 (40.2%)	117 (100%)	
	Female	157 (47.1%)	176 (52.9%)	333 (100%)	
3	Education				$X^2 = 23.31$ ($p < 0.05$)
	Not educated	60 (38.0%)	98 (62.0%)	158 (100%)	
	Low education	127 (53.6%)	110 (46.4%)	237 (100%)	
	Middle education	18 (64.3%)	10 (35.7%)	28 (100%)	
	High education	16 (81.5%)	5 (18.5%)	27 (100%)	
4	Marital status				$X^2 = 6.68$ ($p < 0.05$)
	Married	114 (57.3%)	85 (42.7%)	199 (100%)	
	Separated	113 (45.0%)	138 (55.0%)	251 (100%)	
5	Job				$X^2 = 13.24$ ($p < 0.05$)
	Job	81 (42.2%)	111 (57.8%)	192 (100%)	
	Pension	15 (78.9%)	4 (21.1%)	19 (100%)	
	Not job	131 (54.8%)	108 (45.2%)	239 (100%)	

4. DISCUSSION

Mean scores on the GDS-15 was 4.76 elderly in community. Among the category of characteristics demography of elderly, almost the overall GDS-15 is same as the total average of 4.76. the cut-off score in this study nearly same Compared with out patients's clinics and homes an average of 5 or 6 (Mitchell, Bird, Rizzo, 2010). In general, Elderly visiting health care centers are those who have complaints or health problems. Thus, depressive symptoms were very common, example patient with Parkinson's disease (Meara, Mitchelmore, Hobson, 1999).

Depression symptoms in community were difficult, to be recognized. Although the results of screening in the community find many elderly people experiencing depression. To find depression symptoms in community, Indonesia should use a cut off point of 4 or 5 criteria. Assumed that elderly often elderly people experiencing a crisis of life such as losing a role, the death of someone, withdraw from their environment. Screening is used to see mild depressive disorders. Mild depressive disorders may include mood disorders or mood (depressed, feeling useless) (Darmojo, 2014). Symptoms of mild depression can be fatal to the health of the elderly.

5. CONCLUTIONS

East Java, Indonesia must began to consider social problem relating to health for the elderly specially depressive symptoms.

Acknowledgments

The authors are grateful to the Central Bureau of Statistics of East Java for its support of research data and respondent for its participation and gave information.
