Reviewer A:
The paper is good but there is some points:
- abstract was not structured
- These sentences do not required because it is not epidemiological study(Papua is a province with the highest-burden of malaria in Indonesia owing to its contribution to 79% whole country cases and annual parasite incidence which reaches 31.93 [2,13]. Merauke general hospital is one referral hospital in this province for malaria in Asmat, Mappi, and Bovendigoel agency, primary contributors of malaria in this area [2].
- there is some errors in the grammar
Recommendation: Revisions Required
