Economic Change and Restructuring

Empirical and Policy Research on the Transitional and Emerging Economies

[Editorial board](#) [Aims & scope](#) [Journal updates](#)

Economic Change and Restructuring (formerly "Economics of Planning") publishes cutting-edge research, both theoretical and empirical, on all economic and policy aspects of transitional and emerging economies. In addition to high quality contributions on economic modeling, the journal discusses innovative approaches for economic analysis and policymaking for the development and integration of economies under transition. A partial list of topics includes macroeconomic analysis, fiscal issues, finance and banking, industrial and trade development, and regional and local development issues. The journal aspires to serve as a forum for economists and policymakers working in these fields. —

Abstract

This paper investigates the inflation convergence of 82 Indonesian cities and discusses the remarkable regional inflation programmes in Indonesia. By employing a dynamic panel regression, the paper shows that Indonesia experienced an inflation convergence from 2013 to 2018. An intriguing finding is that the cities in Java-Bali, the largest density area, experienced
