ACKNOWLEDGEMENT

Alhamdulillah, all praises are yours of Allah SWT, the only one who is always around me when I am down because of obstacles, barriers, and confusion in writing this thesis. To you I rely on everything, and without You I am lost. And also to “the chosen one”, prophet Muhammad PBUH, for all of your loves, and I will strive to see your smile and be one of your people on the Judgment day.

To my beloved father and mother, thank you for all supports and the everlasting prayers for your only daughter. Your financial supports are very important to make me survive when you are not around me. You have done everything for me and I will do anything to make you happy. You are the reason why I should be stronger and stronger every time because I do not want to make you disappointed.

To all people in the faculty of humanities, especially to my thesis advisor, David Segoh, M.Ed, thank you for all your guidance, patience, support, and times that you gave me from the beginning of this thesis writing. You are like Buddha for me. Your face is always calm and it makes me calm too. Your jokes always make me realize that I do not need to worry for anything that will happen. Thanks for guiding me to the true interpretation of the data and solving my problems. Thanks to Muhammad Elvin Namara, for your valuable suggestions. They are very valuable to discuss my thesis with you, especially in statistical data. You are always there when I need you, even though I called you and forced you to do what I had to do. And I thank all lecturers of English Department of Faculty of Humanities Airlangga University, for your knowledge transfers, from you I learnt many things that I could imagine before.

To Drs. Waluyo, thank you for the permission that you give so I could conduct the research in SMA N 1 Mejayan Caruban and for Ms. Siti , S. Hum, S.Pd as the English teacher in SMA N 1 Mejayan Caruban, your helps is really priceless and thank you for helping me conduct all the processes of my research. To all students of XI IPS 2 nd 3 SMA N 1Mejayan Caruban, I thank you for helping as my objects of research. Teaching you is my priceless experience. Good luck in your study.

To all my best friends forever ‘my second family’ in Surabaya and ‘07 Unair, I am so lucky to know you guys. Sahe, Feng, Nay and Martha Butet, I am proud of knowing you as my friend. You are incredible. With you, guys, I share every tear and joy. You are all unique and I am so proud to have you because you are the strongest girls I have ever known. If I were not in UNAIR, I would never know you. I believe this is my destiny.

I will never forget the people who always accompany me when I had to do my thesis. Special thanks to 2PM who always makes me happy every night. I always watch their programs and listen to all 2PM’s songs. They were the only my entertainment since I did this thesis because they were successful in making me laugh and forget for a second about my stress even I wanted to cry. I am proud to be ‘The Hottest’. ‘The Hottest’ will always be part of my life.

Finally, I thank you anyone who I unintentionally missed, I hope you can forgive me.
