Reviewers' comments:

Managing Editor

Please can you make the following changes/checks:

1. Please ensure your case report is compliant with the SCARE Guidelines 2020: <http://www.scareguideline.com> and submit a completed SCARE 2020 checklist.

Please pay particular attention to the following criteria which are often missed:

- Who performed the procedure? (item 9d)
- patient perspective (item 12)
- Drug history, family history including any relevant genetic information, and psychosocial history (item 5d)
- Where relevant - intervention adherence and tolerability (item 10c)
- Post-intervention considerations (item 9f)

2. Please also ensure you state that the work has been reported in line with the SCARE 2020 criteria:

Agha RA, Franchi T, Sohrabi C, Mathew G, for the SCARE Group. The SCARE 2020 Guideline: Updating Consensus Surgical CAse REport (SCARE) Guidelines, International Journal of Surgery 2020;84:226-230.

3. Please cite the SCARE 2020 paper above in your text in the methods section and the add the reference to your references section.

4. Please ensure you submit a structured abstract with sub-headings as follows:
Introduction and importance, Case presentation, clinical Discussion, Conclusion

5. Can you also please ensure you go through the entire manuscript and check the spelling, grammar and syntax and ensure the language is concise. If you need our author support services, you can access them here:
<https://www.ijspg.com/services/author-support>

6. Please be very clear about what this adds to the existing literature and clearly detail learning points.

7. Please ensure you submit your work with a Research Registry unique identifying number (UIN) if its first in man i.e. the first time a new device or surgical technique is performed: www.researchregistry.com – it can't progress without being registered. Please ensure you also state your registration UIN in your methods section and reference it including a hyperlink to it if registration is appropriate.

8. If you haven't already, please include your "highlights" which are 3-5 bullet points summarising the novel aspects and/or learning points (maximum 85 characters, including spaces, per bullet point).

9. The consent statement in the author form is not suitable. We need a statement like this:

Written informed consent was obtained from the patient for publication of this case report and accompanying images. A copy of the written consent is available for review by the Editor-in-Chief of this journal on request.

Please see consent section in instructions to authors for further information.

10. Please ensure any images/figures/photos are suitably anonymised with no patient information or means of identifying the patient.

11. Please add a Guarantor on the Author form, if you haven't already.
The guarantor is that individual who accepts full responsibility for the work and/or the conduct of the study, had access to the data, and controlled the decision to publish.

12. Please add the following statement above references:

Provenance and peer review
Not commissioned, externally peer-reviewed

13. Above references, please state the following headings with your response (if something doesn't apply, say N/a or none or none declared):

- conflicts of interest
- sources of funding
- ethical approval
- consent
- author contribution
- research registration (for case reports detailing a new surgical technique or new equipment/technology)
- Guarantor

14. Author Form

Please ensure that you have completed and uploaded the correct author form for IJS Case Reports:

https://www.elsevier.com/__data/promis_misc/2020_IJSCR_Author_Disclosure_Form.docx.

Please also make sure that you complete each section of the form.
