Dear Dr. Brahmana Askandar Tjokroprawiro,

Manuscript ID ICR-2021-0061 entitled 'Huge paratubal cyst: a case report and a literature review', which you submitted to Clinical Medicine Insights: Case Reports, has been reviewed. The comments of the reviewer(s) are included at the bottom of this letter. I invite you to respond to the comments and revise your manuscript.

To revise your manuscript, please click here: <https://peerreview.sagepub.com/Home/WithoutLogin?Url=Author/RevisedManuscriptSubmission&mskey=74190&ID=6&IsRevised=1&UserKey=138587>

Alternatively, you may log into your account and access your Author Desk to locate the manuscript and begin the revised submission.

When submitting your revised manuscript, you will be able to respond to the comments made by the reviewer(s) in the space provided. You can use this space to document any changes you make to the original manuscript. Please be as specific as possible in your response.

Please highlight the changes to your manuscript within the document.

Because we are trying to facilitate timely publication of manuscripts submitted to Clinical Medicine Insights: Case Reports, your revised manuscript should be uploaded as soon as possible.

Once again thank you for submitting your manuscript to Clinical Medicine Insights: Case Reports and I look forward to receiving your revision.

Sincerely,
Dr. Joris Berwaerts
Editor-in-Chief, Clinical Medicine Insights: Case Reports

Reviewer Comments:

Reviewer 1 comments

Very nice and illustrated case study on the rare condition. It would be nice to summarize the previous studies in the table.

If possible, histological images would nicely accompany this case study.

Reviewer 2 comments

Praca przedstawia opis guza przyjajowodowego. Bardzo interesująco opisana. Wkłada znaczny wkład dla praktyki ginekologicznej – zwłaszcza dla ginekologów – operatorów. Napisana merytorycznie dobrze, bez większych zastrzeżeń.

The authors addressed my comments. The manuscript may now be accepted without histologic images.
