Dear Professor Abiodun Falodun, PhD.
Editor-in-Chief
Tropical Journal of Natural Product Research (TJNPR)
Head of Natural Product Research Group, University of Benin

First of all, I want to introduce myself. My name is Alfinda Novi Kristanti. I am a colleague of Dr. Nanik Siti Aminah. We are lecturers in the same department, even in the same research group. It is Dr. Nanik who suggested submitting our manuscript in your journal. Today, I have submitted our manuscript on Tropical Journal of Natural Product Research (TJNPR) online through the system on the website. The title of our manuscript is

Cytotoxicity of Butyrospermol and Sitosterone from *Syzygium aqueum* stem bark

Here I send you an email with the manuscript, manuscript without authors and copyright form as attachment. We hope that our manuscript will be suitable to publish in your journal. Thank you very much for your kind attention.

Best regards,
Dr. Alfinda Novi Kristanti

Dear Dr Kristanti,
Many thanks for the email.

Thank you for submitting your original article for publication in the Tropical Journal of Natural Product Research (www.tjnpr.org) SCOPUS Q3.

Kindly send the names, affiliation and email addresses of two potential referees, one from your country and the other from outside your country. The email addresses of the co-authors are also needed.

The peer-review process will commence immediately, and the Editorial Team will get back to you as soon as the review is completed.

Have a nice evening

Best regards

Abiodun

Review Comments (Cytotoxicity of Butyrospermol and Sitosterone from *Syzygium aqueum* stem bark)

Editorial comments to authors

Abstract: Begin the abstract with a brief background. It should be in an unstructured format.

Materials and Methods: State the date of plant collection, including the voucher number.

- Extraction procedure should be explained in detail giving the quantity of plant material used as well as the volume of solvents used. Also, details for the fractionation and isolation procedures should be given with respect to the amount of plant sample and solvents used.
- Give details of the XTT assay. State the positive control used.
- include session for statistical analysis

Combine the Results and Discussion into a single session.

In-text references should be in superscript numerals without square brackets.

List of references should follow journal adopted format. See journal website at <http://www.tjnpr.org/guideforauthors.aspx#> for details.

There are grammatical errors. Manuscript should be subjected to English language editing prior to submission of the revised form.

All comments/corrections made by reviewers should be completely addressed, point by point, and make appropriate changes in the manuscript, or provide a suitable rebuttal to any specific request for change that has not been made.

All corrections/changes made in the manuscript should be highlighted in yellow colour when submitting the manuscript in the revised form on or before 7th November 2020.

The authors should carefully revise and correct the manuscript taking into consideration the comments of all the reviewers. 50% of the references cited should be between 2016-2020. The revised and corrected manuscript should be subjected to plagiarism checker (15% allowed in TJNPR) and English language editing. Evidence of the checks should be attached when submitting the revised/corrected manuscript.

Best regards

Abiodun

Good afternoon,
Greetings from Indonesia

Herewith I send you the revision of our manuscript, the list of revisions and the plagiarism check as attachment. The plagiarism check is still 22%, but mostly about the terms in chemistry that can not be changed or replaced. We hope that this revised version of our manuscript is suitable to publish in your journal. Thank you for kind and important suggestions from reviewers. We hope to get good news from you soon.

Best regards,
Dr. Alfinda Novi Kristanti
