ACKNOWLEDGEMENTS

Writing this thesis is surely a life changing experience to me. I discover so many things about myself what I am capable of. I had my lowest low and my highest high during the process but, in the end, I find myself grow more mature compared to where I started. From where I am now, I can gladly say that it is over and I cherish every moment I had gone through. First of all, I would like to say my huge gratitude to Allah SWT. Who never fails to light my spirit up when I was down and I did not know where else to turn.

This thesis will never be accomplished without the help of my thesis advisor, Masitha A. S. , M.Hum. Thank you for your tremendous aid and advice. Thank you for making me critical toward anything. I would also like to thank the rest of lecturers of Airlangga University for their guidance and knowledge for all these times. Additionally, I would like to thank the editor of my thesis, Alfawzia Nurrahmi for editing my thesis.

Undoubtly, there are a lot of people to thank. Without them this thesis will only be a piece of boring work, instead of meaningful experience. First and foremost, I would like to thank my mother, maybe she is not the gratest mom on earth, but definitely she is the best mom I have ever had. And, I dedicate this to my father who has been very supporting all this time. My endless gratitude goes to my parents for letting me. Also want to thank my dearest Rachmat Rizky Zruelfaryhz Saputro for their supporting words and never ending spirit. There are still names to thank because without this guys I would not have great college

years. Thank you to Meli, and all Cekithir's members for being my best friends. I know I can be such an annoying person sometimes. Thank you to the rest of the students in 2006 year.
