Article Revision Letter for Authors - (VETWORLD-2021-11-660)

Dari: Veterinary World (noreply@ejmanager.com)

Kepada: esuprihati@yahoo.co.id

Tanggal: Kamis, 24 Maret 2022 09.58 WIB

Dear endang suprihati,

Your manuscript entitled "Comparison of ITS-1 and TBR-1/2 primer sensitivity on detecting Trypanosoma evansi local isolates in experimental rats using Polymerase Chain Reaction" (Ms.Nr. VETWORLD-2021-11-660) was reviewed by reviewers of the Veterinary World. As initial decision, your manuscript was found interesting but some revisions have to be made before it can reach a publishable value. Please refer comments given at bottom.

You should send your revised manuscript via the online system of ScopeMed on <https://ejmanager.com/my/vetworld/>.

Sincerely yours,

Editor-Veterinary World
Star, Gulshan Park, NH-8A, Chandrapur Road,
Wankaner-363621, Dist. Morbi, Gujarat,
India
www.veterinaryworld.org

COMMENTS for Authors:

EDITORIAL COMMENTS:

- Highlight all corrections/additions in red color font in revised manuscript.
- Please answer all the comments below point-by-point in an accompanying response letter to your revised submission and include your responses at appropriate paragraphs in the revised word file.
- Include all authors name, affiliation, ORCID and email address in revised Word file as per format and style of Veterinary World. Please check latest article from www.veterinaryworld.org for format of this section.
- All reference no. in the text must be in continuous no. as per style of Veterinary World and amend the reference section accordingly if you have not done it.
- Please divide the introduction into 3 paragraphs if you have already not done. Introduction must be divided into 3 paragraphs i.e., 1. introduction 2. significance of the study and 3. aim of the study.
- Include authors' contributions (refer just below the conclusion section in latest article from www.veterinaryworld.org for format of this section) if you have not added.
- Include Acknowledgements along with source of fund for this study if you have not included.
- All journal names in references must be as per standard journal abbreviation.
- If you will not revise strictly as per suggestion then there will be a chance of rejection. So, revise carefully. If you have any query then please email to Editor-in-Chief.

Reviewer-1:

- Manuscript is not as per the format of Veterinary World journal. Please format it according to the instructions to authors.

Line-23: developing country

Line-25: May be control instead of prevent.

Line-51: Which strain of rat? male or female?

Line-52? Which drugs? mention the name and for why?

Line-52: acclimatized instead of adapted.

Line-53: Mention company and country name or the pellet feed.

Line-57: collected in which year?

Line-64: For how many days observed?

Line-65: How many mL blood sample? On which day blood was collected?

Line-72: on the filter paper

Line-72: Which group sample was used for DNA extraction?

Line-99: On which day death was observed?

Line-121: First line of discussion should be aim of the study for the recapitulation to the readers.

Discussion

You have to compare your results with the previous studies conducted in Indonesia and/or similar geographical area.

Reviewer-2:

Manuscript is very simple.

Needs to improved Discussion section.

Line-57: isolates from which animal?

Line-68: every 2 days for how many days?

Line-70: every 4 days for how many days? On which day, all treatments were positive?

Conclusion: Correctly interpret your results. Also, include limitations and future scope of the study.

References: Journals name should be as per the format of Veterinary World.

Needs to improve English.

Editor's comment:

Get professional copyediting from ENAGO or Editage [keep all corrections in track changes (language as well as editorial and reviewers) and paste the certificate in the revised word file] or ask Veterinary World in answer letter for copyediting service (with extra payment) as your manuscript needs extensive copyediting.

Dear Dr. Endang Suprihati,

Please check our bank account. You may have made a mistake in filling our bank account. There is no problem with our account so, double check the details in the form and compare it with the details we have given to you in the payment request email.

We receive many transactions from BNI (Bank Mandiri Indonesia) without any problem so, there are some mistakes either at your end or bank.
