## A C K N O W L E D G E M E N T S

Praise all be to Allah SWT for His mercy and guidance in helping me make this thesis possible.

Many people helped in many ways as I labored over this thesis. Dra, S.E. Widjajati, M.S., my advisor, read my work, offered excellent advice, and expressed confidence in my work. Nova, my buddy, struck the initial spark of enthusiasm and provided relentless encouragement for me to meet the deadline. To both of them, I owe a debt of gratitude.

Similarly I am grateful to various lecturers, especially Drs. A. Rahman, and people who provided some help in getting the necessary references and some useful comments on my work. To Noor, Julita, and Ela who had generously helped me through the completion of my thesis, I want to express my heartfelt appreciation.

Finally, I am grateful to my mother for her encouragement and her faith in me; my brother and sisters for their love and great contribution. Thanks are also due to Putu whose support enabled me to eventually finish this thesis.

The writer humbly realizes that this thesis may be far from being perfect and needs a lot of improvements.

Therefore, the writer expects the critics and suggestions come from the reader to improve and complete this thesis.
