ACKNOWLEDGEMENT

First of all, I would like to express my endless gratitude to Allah SWT for always giving me courage and strength so that I can finish this thesis. I can do nothing without His guidance.

I also wish to express my thank to everyone who has given contribution in accomplishing my thesis. They are: Dra. Anna Dewanti who has always been kind and patient in advising and giving me another chance to reach my goal to finish my thesis, my beloved family who always pray and support me in finishing this thesis, and those whose names cannot be mentioned here for their support and comments to accomplish this thesis.

Finally, I realize that this thesis is far from perfect. Therefore, any constructive criticisms and corrections will be expected to make it better and I hope this thesis can be useful.

Surabaya, December 1997
