Dear Dr. Sallam,

Thank you very much for submitting your manuscript to Vaccines. In the process of checking your manuscript, we found there are several issues which need to be solved:

1. Please sign the MDPI-authorship statement in the attachment.
2. You are suggested to keep only one corresponding author. The corresponding author is the one individual who takes primary responsibility for communication with the journal during the manuscript submission, peer review, and publication process. - This is from ICMJE <http://www.icmje.org/recommendations/browse/roles-and-responsibilities/defining-the-role-of-authors-and-contributors.html>. So typically, one corresponding author would be enough.

Thank you very much for your understanding and cooperation in advance. Please do not hesitate to contact us if you have any questions.

We are looking forward to hearing from you soon.

Kind regards,
