Dear professor Artono

Thank you for your letter with articles.

I would like to inform you that the article "Head Injury Case With Blunt Force Traumatic: A Case Report At Bhayangkara Hospital Kediri Indonesia" by Purwanti T et al has already been published in the first issue of this year. However, the responsible author did not respond to our letters. The authors probably do not even know that we sent them the electronic version of the journal.

The second article you submitted is your article "Correlation Between The Perforation Size And Patency Of Eustachian Tube And Graft Uptake In Intact Canal Wall Tympanoplasty Surgery: A Study Of 32 Benign-Type Csom Patients" by Artono et al., which we communicated to you , we plan to publish in the second issue.

We made some remarks to your article (see the attached file), which must be corrected. We ask you to send the corrected article to our address within three days.

Please let us know when you receive this letter.

Sincerely, Stepan
