Dear Authors,

Bersama ini kami kirimkan hasil review untuk naskah dengan judul *Distribution of Human Papilloma Virus (HPV) in Cervical Adenocarcinoma and Adenosquamous Carcinoma*. Mohon ditindaklanjuti sesuai dengan saran reviewer.

Kemudian, untuk melengkapi syarat submit naskah, mohon mengirimkan "Disclaimer" yang bisa didownload di link berikut https://drive.google.com/file/d/1zecz8NQ7AxoH2FEV4DlfeFNyQ_GhIZXt/view?usp=sharing atau di web OJS kami.

Setelah terisi, mohon mengirimkannya kembali ke alamat email ini.

Atas perhatian dan kerjasamanya kami sampaikan terima kasih.

Salam

PEER REVIEW FORM

TITLE : DISTRIBUTION OF HUMAN PAPILLOMA VIRUS (HPV) IN CERVICAL ADENOCARCINOMA AND ADENOSQUAMOUS CARCINOMA		
AUTHOR(s) :		
NO	REVIEW POINTS*	SUGGESTION
1.	Is the article divided into Introduction, Materials and Methods, Results and Discussion (IMRAD) structure ?	YES
2.	Is the article well-written (in English) including the grammar and structure ?	YES
3.	Does the abstract provide the context or background for the study and state the study's purpose ?	YES
4.	Does the title represent the whole article content ?	YES
5.	Does the introduction clearly describe the problem, the scope and purpose of the study ?	YES, the epidemiology in the world or Indonesia is not stated
6.	Is the stages of the study defined clearly and included statement(s) indicating that the study was approved by a responsible ethical review committee?	YES
7.	Are the statistical methods appropriate and sufficiently detailed in such a way that others with access to the data would be able to reproduce the results ?	YES

8.	Are the results given appropriately (including in tables or figures) and well-explained in logical sequence in the text, tables, and figures, providing the main or most important findings. No repetition of the data in the tables or figures in the text.	YES
9.	Does the discussion show clear relationship between the results obtained and the basic concepts or hypothesis ? Emphasize new and important aspects of the study, statement of the study limitations, and explore the implications of the findings for future research and for clinical practice or policy.	YES
10.	Is the conclusion clear and brief, including the link between conclusions with the goals of the study.	YES
11.	Does the author provide references to original research sources?	YES

Conclusion	Check (v)
• Can be published without correction	
• Can be published with correction	V
• Cannot be published	

* according to ICJME Recommendations
