Dear Enny Narwati

I trust you are well.

I have been proofreading your paper for WJEMSD and have some queries for you. I give these below in the order in which they appear in your paper.

- Throughout the paper you have used ton as a measurement. Do you mean here an imperial ton (so 1,000 pounds) or a metric tonne (so 1,000 kilos)?
- Please provide a title and source for Table 1
- Text and references. You have two FAO references for 2020; these need to be assigned a and b so readers can differentiate between them. You also need to assign a or b to the citations in the text
- In the last line of the paragraph starting 'If the fishing quota is applied, ...' you use tonne rather than ton; is this correct?
- In the paragraph starting 'In Indonesia, the implementation of the TACs ...', you use OCEANA; is this the non-profit environmental organisation? If yes, please provide a brief footnote to explain.
- You have a reference KKP News (2016). The link you have provided comes up as a suspicious site; please check and provide a different link if possible
- In the references you have two references for Marzuki, 2005, however, GoogleScholar gives the revision text date as 2017. Please check and advise which is correct. If both should be 2005, they will need to be assigned a and b to allow readers to differentiate between them, and any citations also need a or b added
- Please provide a brief biography of approximately 100 words plus an HD photo for Masitha Tismananda Kumala

If you could please provide the above information as quickly as possible I can complete your paper and pass to the typesetters.

Many thanks

Janet
