Resubmit your article - (OVJ-2021-01-03)

From: noreply@ejmanager.com (noreply@ejmanager.com)

To: rma_fispro@yahoo.com

Date: Thursday, January 7, 2021 at 04:34 AM GMT+7

Dear Erma Safitri,

Your manuscript titled -Kaliandra honey improves testosterone levels, diameter and thickness of tubulus seminiferus epithelial of white rat (*Rattus norvegicus*) due to malnutrition through stimulation of HSP70- and manuscript ID (OVJ-2021-01-03) was reviewed by Editorial Board of Open Veterinary Journal and decided to send back to you for your revising the paper according to journal instructions for authors.

COMMENTS for Authors:

- Abstract should be structured (Background, Aim, Methods, Results, Conclusion).
- References section at the end of the article, should be corrected according to instructions for authors, for example: Journals names in the References list should be abbreviated as that in PubMed, see other published articles as examples.
- OVJ used to offer open access with free publication during the past 10 years. Due the lack of support, article publication charge has been applied in order for the journal to keep continued.
- All articles published in OVJ are published in full open access. In order to provide free access to readers, and to cover the costs of peer review, copyediting, typesetting, long-term archiving, and journal management and costs, an article processing charge (APC) of 350 USD applies to papers accepted after peer review.
- If you are willing to pay the APC (if your manuscript has been accepted following the peer-review), then resubmit your manuscript again according to instructions for authors and faster peer-review process will be guaranteed.

You should send your revised manuscript by visiting journal Submit Article page: Open Author menu --> Uncompleted submissions.

Sincerely yours,

Prof. Ibrahim Eldaghayes
Editor-in-Chief
Open Veterinary Journal
